The aim of the Index Switch is to provide Shareholders with an exposure to the New Index that provides a broader exposure to the fixed rate, USD denominated high yield corporate bond market, including 144A Securities.

In addition, the New Index employs a "best in class" ESG methodology, under the Bloomberg SASB index framework, whereby the index optimises it's ESG score and excludes issuers based on their ESG characteristics considering both their ESG rating and their involvement in certain controversial business activities, while controlling for active total risk. As a result of this change the Fund's classification pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector will change from Article 6 to Article 8.

A full description of the New Index and its construction methodology and information on the composition and respective weights of the New Index components are available on the index provider's website <https://www.bloomberg.com/professional/product/indices/bloomberg-barclays-indices/#/ucits>

The Fund will bear the costs associated with the index change. The attention of the Shareholders is drawn to the fact that the costs linked to the index change could have a negative impact on the net asset value of the Fund.

The Fund will retain all other characteristics, in particular the codes used in trading and the total expense ratio.

Following the index change, the Relevant Supplement and Key Investor Information Document of the Fund will be amended accordingly.

A changed pages only mark-up of the Relevant Supplement showing all of the amendments made has been included at Appendix IV.

Recommendation

The Board believes that the resolutions to be proposed at the EGM are in the best interest of the Fund and the Shareholders as a whole and accordingly, the directors recommend that you vote in favour of the resolutions at the EGM.

Subject to the receipt of prior approval from the Central Bank, proposed updates to the Relevant Supplement as detailed above are intended to take place on or around 29 October 2021.

We consider the health of attendees at the EGM and the staff of the Company's service providers a top priority. Attendees are strongly encouraged to appoint a proxy to vote at the EGM on their behalf, as the preferred means of fully and safely exercising their rights, as personal attendance at the EGM may present a risk to themselves and others. Insofar as practicable, the EGM will be held in accordance with the guidance of the Health Service Executive (the Irish public health authority), meaning:

- the EGM will be as brief as possible;
- personal attendance is not recommended and the Shareholder is encouraged to appoint proxies to vote on its behalf;
- refreshments will not be provided; and
- in the event that a change of venue is necessitated, this will be communicated to the Shareholder as far in advance of the EGM as practicable.

DATED 15 September 2021

BY ORDER OF THE BOARD

Matsack Trust Limited

Entitlement to attend and vote

- Please note that you are only entitled to attend and vote at the meeting (or any adjournment thereof) if you are a registered shareholder. As sub-funds in the Company use the International Central Securities Depository ("ICSD") model of settlement and Citivic Nominees Limited is the sole registered shareholder of shares in the sub-funds under the ICSD settlement model, investors in the sub-funds should contact the relevant ICSD or the relevant participant in an ICSD (such as a local central securities depository, broker or nominee) if they have any queries on the course of action they should take in relation to this document.

As mentioned above, investors in sub-funds in the Company who are not registered shareholders should submit their voting instructions through the relevant ICSD or the relevant participant in an ICSD (such as a local central securities depository, broker or nominee), instead of using the form of proxy. To be effective, the form of proxy duly completed and executed, together with a copy of the power of attorney or other authority under which it is executed must be deposited by registered shareholders at the offices of the office of the Company Secretary, via email to fscompliance@matheson.com so as to be received no later than 48 hours before the time appointed for the EGM or any adjournment thereof or (in the case of a poll taken otherwise than at or on the same day as the EGM or adjourned EGM) at least 48 hours before the taking of the poll at which it is to be used. Any alteration to the form of proxy must be initialled by the person who signs it.
- In addition to note 4 above and subject to the Articles of Association of the Company and provided it is received at least 48 hours before the time appointed for the holding of the EGM or any adjournment thereof or (in the case of a poll taken otherwise than at or on the same day as the EGM or adjourned EGM) at least 48 hours before the taking of the poll at which it is to be

used, the appointment of a proxy may also be submitted electronically to fscompliance@matheson.com.

In the case of joint holders, the vote of the senior who tenders a vote, whether in person or by proxy, shall be accepted to the exclusion of the votes of the other registered holders and for this purpose seniority shall be determined by the order in which the names stand in the register of members in respect of the joint holding.

Investment Objective and Policy

Investment Objective: The objective of the Fund is to track the performance of the fixed-rate, ~~short-term~~, U.S. Dollar-denominated high yield corporate bond market.

Investment Policy: The investment policy of the Fund is to track the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

~~The Index measures the performance of the short-term U.S. dollar-denominated high yield corporate bond market.~~

~~Securities must be fixed rate, U.S. dollar-denominated, taxable corporate debt with a maturity of less than five years; all bonds in the Index will remain until maturity. Securities must have an amount outstanding of at least \$350 million and be rated high yield; securities rated below CCC, as defined by the Index methodology, are excluded. Issuers are capped at a maximum of 2% weight in the Index. The Index excludes privately issued Rule 144A securities and non-corporate bonds. Index constituents may on occasion be rebalanced more often than the Index Rebalance Frequency, if required by the Index methodology, including for example where corporate actions such as mergers or acquisitions affect components of the Index.~~

Information Classification: General

The Index is a high yield, fixed-rate, U.S. dollar-denominated benchmark that optimizes its R-Factor™ score, an environmental, social and governance ("ESG") rating, provided by State Street Global Advisors®. Based on the Bloomberg Barclays U.S. High Yield Corporate Index (the "U.S. HY Corporate Index"), the Index selects securities eligible for the U.S. Corporate Index, then aims to exclude certain issuers based on their ESG characteristics considering both their ESG rating and their involvement in certain controversial business activities as outlined in the index methodology. Then, the Index weights securities using an optimisation process, in order to seek to maximise the portfolio ESG rating, while controlling for active total risk. The active total risk refers to the variation between the Index and the U.S. HY Corporate Index.

At least 90% of the Fund's assets are invested in securities that are constituents of the Index, while the index provider applies ESG ratings on all of the Index constituents. It is expected that the resulting portfolio ESG rating will be higher than the portfolio ESG rating of the U.S. HY Corporate Index after applying a filter eliminating at least 20% of the least well rated securities, by ESG rating, from the U.S. HY Corporate Index.

The adoption of these screens and best in class criteria within the Index correspond to the environmental and social factors which the Fund promotes, as further described in the "ESG Screening" and "ESG Best in Class Investing" subsections of the "ESG Investing" section of the Prospectus. Companies deemed by the Index provider to not violate United Nations Global Compact principles are considered to exhibit good governance. The main methodological limits are described in the "Screening Risk" subsection of the "Investment Risks" section of this Supplement.

Hedged Share Classes are made available to reduce the impact of exchange rate fluctuations between the currency of the Class and the currency in which the underlying assets are denominated. Investors should note that the hedged Share Classes (designated as such in this Supplement) will be hedged back to the currency of the relevant Class. Consequently the hedged Share Classes should more closely track the corresponding currency hedged versions of the Index ("Currency Hedged Index").

The Investment Manager and/or Sub-Investment Manager, on behalf of the Fund, will invest using the stratified sampling strategy as further described in the "Investment Objectives and Policies – Index Tracking Funds" section of the Prospectus, primarily in the securities of the Index, at all times in accordance with the Investment Restrictions set forth in the Prospectus. The Investment Manager and/or Sub-Investment Manager also may, in exceptional circumstances, invest in securities not included in the Index but that it believes closely reflect the risk and distribution characteristics of securities of the

Index. The bond securities in which the Fund invests will be primarily listed or traded on Recognised Markets in accordance with the limits set out in the UCITS Regulations. Details of the Fund's portfolio and the indicative net asset value per share for the Fund are available on the Website daily.

Currency Hedging: The Fund will use financial derivative instruments ("FDIs"), including forward foreign exchange contracts, to hedge some or all of the foreign exchange risk for hedged Share Classes. Currency hedging transactions in respect of a hedged Share Class will be clearly attributable to that Class and any costs shall be for the account of that Class only. All such costs and related liabilities and/or benefits will be reflected in the net asset value per Share of the Class. Over-hedged or under-hedged positions may arise unintentionally due to factors outside the control of the Investment Manager and/or Sub-Investment Manager but will be monitored and adjusted on a regular basis.

Permitted Investments

Bonds: The securities in which the Fund invests may include government and government-related bonds, corporate bonds, asset-backed securities, mortgage-backed securities, commercial mortgage-backed securities, covered bonds and collateralised bonds and 144A Securities. 144A Securities are securities that are not required to be registered for re-sale in the United States under an exemption pursuant to Section 144A of the U.S. Securities Act of 1933 ("144A Securities"), but can be sold in the United States to certain institutional buyers. The 144A Securities will be listed or traded on Recognised Markets.

Other Funds / Liquid Assets: The Fund may invest up to 10% of its net assets in other regulated open-ended funds (including Money Market Funds) where the objectives of such funds are consistent with the objective of the Fund and where such funds are authorised in member states of the EEA, United Kingdom, USA, Jersey, Guernsey or the Isle of Man and where such funds comply in all material respects with the provisions of the UCITS Regulations. The Fund may hold ancillary liquid assets such as deposits in accordance with the UCITS Regulations.

Derivatives: The Fund may use FDIs for currency hedging and efficient portfolio management purposes. Any use of FDIs by the Fund shall be limited to futures and forward foreign exchange contracts (including non-deliverable forwards). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk; the reduction of cost; the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund; or the minimisation of tracking error, i.e. the

SPDR Bloomberg Barclays 0—5 Year SASB U.S. High Yield Bond Corporate ESG UCITS ETF

the currency in which the Fund's assets are denominated appreciates.

Integrating Sustainability Risk: Sustainability Risk has not been integrated into the Fund's investment process. Any deterioration in the financial profile of an underlying investment affected by a Sustainability Risk may have a corresponding negative impact on the Net Asset Value and/or performance of the investing Fund. Where a Sustainability Risk event occurs, this Fund may be more impacted than an equivalent Fund that integrates Sustainability Risk. Shareholders should refer to the "Index Strategies and Sustainability Integration" section of the Prospectus for further information.
