1	Approve Merger Agreement with Potash Corporation of Saskatchewan Inc.	Mgmt	For	For	For	No
<i>Voting Policy Rationale: A vote FOR is warranted based on a review of the terms of the transaction, in particular, the sound strategic rationale. While the company should not have significant operating risks on a stand-alone basis with its existing integrated retail-focused strategy in the near term, the proposed merger appears to represent a compelling strategic transition for the company for better long-term value creation. The concerns over which AGU will be more exposed to the price of potash which has undergone a declining trend may be mitigated by the US\$500 million expected annual operating synergies as a result of meshing AGU's retail business with PTU's position as a wholesale producer of fertilizer products. Meanwhile, the merged entity will have significant leverage to market recovery. The combined company is expected to establish a dividend payment equal to the current AGU level, adjusted for the new share count.</i>

5.2	Approve Maximum Remuneration of Executive Committee in the Amount of CHF 99 Million	Mgmt	For	For	For	No
	<i>Voting Policy Rationale: Although the increase in the pay envelope is partly due to compensation increases, it also accounts for the addition of one new member to the executive management team. On a per-person basis, total potential remuneration would decline by 3 percent year-on-year. Actual payout levels would be partly contingent on incentive pay, and the company's executive-pay-for performance does not raise serious concerns at this time. The concerns raised in the analysis about executive pay quantum are not considered to warrant a vote against the executive pay envelope at this time. A vote against the remuneration report is considered more appropriate at this time. However, repeated concerns about executive pay quantum may warrant shareholder opposition to this item in future years.</i>

6.2	Approve Maximum Fixed and Variable Remuneration of Executive Committee for 2017 Fiscal Year in the Amount of CHF 8.3 Million	Mgmt	For	Against	Against	Yes
<i>Voting Policy Rationale: A vote AGAINST the maximum remuneration of executive management for the 2017 financial year is warranted because- There is a medium level of concern regarding CEO pay-for-performance.- The board proposes to increase the maximum remuneration that could be paid to the executive management team by 18.6 percent. This can be considered a high year-over-year potential increase in total compensation.- The proposed increase in potential remuneration is not considered to be well justified. While it is connected to an overhaul of the executive remuneration system, which includes changes that should "at least in principle" improve the long-term performance alignment of executive board members, performance targets have not been disclosed, which means it is not possible to assess how rigorous the new variable remuneration plans will be. Based on available disclosures, shareholders may conclude that SPS executive board members could receive more remuneration for equivalent levels of performance under the new remuneration system.</i>
