NOTICE TO UNITHOLDERS

Unavailability of estimated Net Asset Value per Unit on Greater China ETF’s website

We, the Manager of SPDR[®] FTSE[®] Greater China ETF (“**Greater China ETF**”), are writing to inform you that the near real-time display of estimated Net Asset Value per Unit (“**iNAV**”) on Greater China ETF’s website (<https://www.ssga.com/hk/en/individual/etfs/funds/spdr-ftse-greater-china-etf-3073>¹) was interrupted from 9:30 am (Hong Kong time) of 23 December 2019 until 12:30 pm (Hong Kong time) of the same day (the “**Incident**”). The Incident was caused by a connection failure between the iNAV calculation and the application programming interface systems utilised by Greater China ETF's iNAV external data provider (the “**iNAV Service Provider**”) for delivery of the iNAV data to Greater China ETF’s website (the “**Connection Failure**”). As a result of the Connection Failure, the iNAV was suspended and not updated on a timely basis.

¹ This website has not been reviewed by the Securities and Futures Commission.

The Incident was subsequently resolved when the system connection was re-established and the update to the disclosure of the iNAV resumed at 12:30 pm (Hong Kong time) on the same day.

In accordance with Chapter 8.6(u)(i) of the Code on Unit Trusts and Mutual Funds, Greater China ETF must publish, amongst other things, the iNAV on Greater China ETF's website on a real-time or near real-time basis during trading hours of the Stock Exchange of Hong Kong.

No unit creation or redemption orders were received on the day of the Incident. The display of iNAV on Greater China ETF's website during the Incident indicated that the last updated time of the iNAV was before the time of the Incident. The Incident did not involve any errors in the valuation of Greater China ETF or the price quotes for secondary market trading.

In light of the above, the Manager is of the view that the Incident (i) has no material prejudicial effect on investors, or primary market activities and secondary market trading activities of Greater China ETF and (ii) does not have direct financial impact on investors.

In order to prevent similar issues from arising in the future, the Manager has instructed the iNAV Service Provider to carry out steps to ensure that any iNAV system reconnections following a Connection Failure will take effect prior to 8:30am on a Business Day so as to eliminate any possible disruption on the iNAV disclosure of Greater China ETF.

Unitholders who have any questions concerning this notice may contact State Street Global Advisors Asia Limited, as the Manager of Greater China ETF, at telephone number +852 2103 0100.
