Endnote

- 1 Breakdown is provided by number of proposals.

About State Street Investment Management

At State Street Investment Management, we have been helping create better outcomes for institutions, financial intermediaries, and investors for nearly half a century. Starting with our early innovations in indexing and ETFs, our rigorous approach continues to be driven by market-tested expertise and a relentless commitment to those we serve. With over \$5 trillion in assets managed*, clients in 60 countries, and a global network of strategic partners, we use our scale to deliver a comprehensive and cost-effective suite of investment solutions that help investors get wherever they want to go.

* This figure is presented as of March 31, 2026 and includes ETF AUM of \$1,940.32 billion USD of which approximately \$184.18 billion USD in gold assets with respect to SPDR products for which State Street Global Advisors Funds Distributors, LLC (SSGA FD) acts solely as the marketing agent. SSGA FD and State Street Investment Management are affiliated. Please note all AUM is unaudited.

There is no representation or warranty as to the current accuracy, reliability or completeness of, nor liability for, decisions based on such information and it should not be relied on as such.

The views expressed in this material are the views of the Asset Stewardship Team through the period ended March 31, 2026 and are subject to change based on market and other conditions. This document contains certain statements that may be deemed forward-looking statements. Please note that any such statements are not guarantees of any future performance and actual results or developments may differ materially from those projected.

The trademarks and service marks referenced herein are the property of their respective owners. Third-party data providers make no warranties or representations of any kind relating to the accuracy, completeness or timeliness of the data and have no liability for damages of any kind relating to the use of such data.

The returns on a portfolio of securities which exclude companies that do not meet the portfolio's sustainable strategy criteria may trail the returns on a portfolio of securities which include such companies. A portfolio's sustainable strategy criteria may result in the portfolio investing in industry sectors or securities which underperform the market as a whole.

Equity securities may fluctuate in value and can decline significantly in response to the activities of individual companies and general market and economic conditions.

Bonds generally present less short-term risk and volatility than stocks, but contain interest rate risk (as interest rates rise, bond prices usually fall); issuer default risk; issuer credit risk; liquidity risk; and inflation risk. These effects are usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss.
