What is this product?

Type

This Fund is an open-ended investment company with variable capital which was incorporated in Ireland on 5 January 2011 under registration number 493329 and is authorised by the Central Bank of Ireland as a UCITS.

Term

The Company is an open-ended public limited company incorporated for an unlimited period. However, it may be dissolved at any time by a resolution passed at a general meeting of Shareholders adopted in compliance with applicable laws.
This Fund has no maturity date. However, it may be terminated and liquidated by the decision of the Board under specific conditions set forth in the Prospectus.

Objectives

Investment objective The objective of the Fund is to provide a return in excess of the performance of developed and emerging equities markets globally.

The Fund is an actively managed fund.

Investment policies The investment policy of the fund is to outperform the MSCI ACWI Index (the "Index") over the medium to long term. As such the performance of the Fund will be measured against the Index.

The fund will seek to achieve the objective by using a proprietary active investment strategy. This strategy will apply a quantitative multi-factor stock selection model (an "alpha model") to evaluate the attractiveness of stocks.

The alpha model is based on a generation of expected return forecasts for stocks based on a number of factors including quality, value, sentiment and catalyst themes along with expectations of sector and country returns and a dynamic component based on both bottom up and top down, macroeconomic inputs.

In line with the Fund's promotion of environmental or social characteristics in accordance with SFDR Article 8 the investment policy will also involve screening out securities based on non-compliance with UNGC Principles (relating to environmental protection, human rights, labour standards, anti-corruption), association with Severe ESG Controversies, controversial weapons, civilian firearms, thermal coal, arctic oil & gas exploration, and oil sands extraction and tobacco.

The Index measures the performance of the global equity markets, covering equity securities from both developed and emerging markets. Securities in the Fund are weighted by market capitalization and are selected primarily from the constituents of the Index, however the Investment Manager may consider ESG criteria in its investment process.

The Fund's return will typically differ from and may under-perform, the return of the Index.

The Fund promotes environmental or social characteristics in accordance with SFDR Article 8. These environmental and social characteristics are detailed in the SFDR Annex of the Fund's Supplement.

The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.

The Shares of the USD Class are issued in U.S. Dollar.

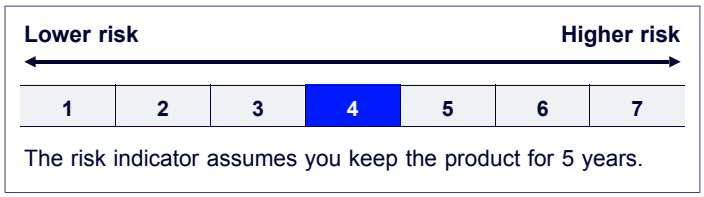
What are the risks and what could I get in return?

Risks



The risk indicator assumes you keep the product for 5 years.

The risk category above shows how likely the fund is to lose money because of movements in the markets or because we are not able to pay you. The Fund's risk category is not guaranteed and may change in the future.

We have classified this product as 4 out of 7, which is a medium risk category.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity of State Street Global Advisors Europe Limited to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the performance of your investment will be impacted by the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Besides the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the Fund Prospectus, available free of charge at www.ssga.com.

Performance scenarios

The figures shown include all the costs of the Fund other than the costs that you may need to pay to your advisor, distributor or other intermediary. The figures do not take into account your personal tax situation, which may also affect your return.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between June 2024 and June 2025.

Moderate: this type of scenario occurred for an investment between November 2015 and November 2020.

Favourable: this type of scenario occurred for an investment between March 2020 and March 2025.

What happens if the Fund Manager is unable to pay out?

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Company or the depositary is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Fund. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 USD is invested.

Example Investment 10,000 USD	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	**37 USD**	**313 USD**
Annual cost impact*	**0.4%**	**0.4% each year**

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 11.2% before costs and 10.8% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	**0.00%** The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price. This includes the costs of distribution of your product.	**0 USD**
Exit costs	**0.00%** The Impact of the costs of exiting your investment when it matures.	**0 USD**
Ongoing costs taken each year		**Annual cost impact if you exit after 1 year**
Management fees and other administrative or operating costs	**0.30%** of the value of your investment per year. This is based on a combination of estimated and actual costs.	**30 USD**
Transaction costs	**0.07%** The impact of the costs of us buying and selling underlying investments for the product.	**7 USD**
Incidental costs taken under specific conditions		**Annual cost impact if you exit after 1 year**
Performance fees	There is no performance fee for this Fund.	**0 USD**

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Fund is designed for longer term investments; you should be prepared to stay invested for at least 5 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer.

Redemptions are possible on every working day; with a payments timeline as outlined in the Fund Supplement and/or Prospectus. The price for the day, reflecting the actual value of the Fund, is set each day after the valuation point, and published on our website www.ssga.com.

How can I complain?

If you have a complaint about the Fund or the Manager, you can find more details about how to complain and the Manager's complaint handling policy in the "Contact Us" section of the website at: www.ssga.com.
