What is this product?

Type

This Fund is an open-ended investment company with variable capital which was incorporated in Ireland on 5 January 2011 under registration number 493329 and is authorised by the Central Bank as a UCITS.

Term

The Company is an open-ended public limited company incorporated for an unlimited period. However, it may be dissolved at any time by a resolution passed at a general meeting of Shareholders adopted in compliance with applicable laws.
This Fund has no maturity date. However, it may be terminated and liquidated by the decision of the Board under specific conditions set forth in the Prospectus.

Objectives

The objective of the Fund is to track the performance of the Eurozone government bond market.

The Fund seeks to track the performance of the Bloomberg Euro Treasury Bond Index (the "Index") as closely as possible.

The Fund is an index tracking fund (also known as a passively managed fund).

Investment policies The Fund invests primarily in securities included in the Index. These securities include bonds issued by governments from the Eurozone. As it may be difficult to purchase all securities in the Index efficiently, in seeking to track the performance of the Index the Fund will use a stratified sampling strategy to build a representative portfolio. Consequently, the Fund will typically hold only a subset of the securities included in the Index.

The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

Save in exceptional circumstances, the Fund will generally only issue and redeem shares to certain institutional investors. However, shares of the Fund may be purchased or sold through brokers on one or more stock exchanges. The Fund trades on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund.

The Fund's maximum exposure to securities lending as a percentage of its Net Asset Value will not exceed 70%.

Shareholders may redeem shares on any UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be paid to shareholders in respect of the shares.

The Fund's shares are issued in Euro.

Intended retail investor

This Fund is intended for investors who plan to stay invested for at least 3 years and are prepared to take on a medium-high level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

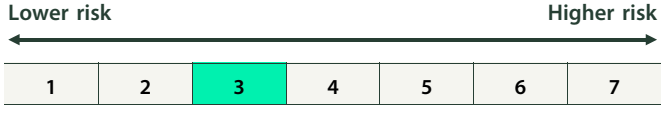
Practical information

Depositary The Fund depositary is State Street Custodial Services (Ireland) Limited.

Further information A copy of the Prospectus and latest annual and semi-annual financial report in English and the latest Net Asset Value per Share are available free of charge upon request from www.ssga.com or by writing to the Fund Manager, State Street Global Advisors Europe Limited, 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

What are the risks and what could I get in return?

Risks



The risk indicator assumes you keep the product for 3 years.

The risk category above shows how likely the fund is to lose money because of movements in the markets or because we are not able to pay you. The Fund's risk category is not guaranteed and may change in the future.

We have classified this product as 3 out of 7, which is a medium-low risk category.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of State Street Global Advisors Europe Limited to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the performance of your investment will be impacted by the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Besides the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the Fund Prospectus, available free of charge at www.ssga.com.

Performance scenarios

The figures shown include all the costs of the Fund other than the costs that you may need to pay to your advisor, distributor or other intermediary. The figures do not take into account your personal tax situation, which may also affect your return.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between February 2020 and February 2023.

Moderate: this type of scenario occurred for an investment between August 2014 and August 2017.

Favourable: this type of scenario occurred for an investment between August 2013 and August 2016.

What happens if the Fund Manager is unable to pay out?

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Company or the depositary is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Fund. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	**if you exit after 1 year**	**if you exit after 3 years** (recommended holding period)
Total Costs	**12 EUR**	**39 EUR**
Annual cost impact*	**0.1%**	**0.1% each year**

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.6% before costs and 2.4% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	**0.00%** The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price. This includes the costs of distribution of your product.	**0 EUR**
Exit costs	**0.00%** The Impact of the costs of exiting your investment when it matures.	**0 EUR**
Ongoing costs taken each year		**Annual cost impact if you exit after 1 year**
Management fees and other administrative or operating costs	**0.10%** The impact of the costs that we take each year for managing your investments. This will include the costs of borrowing money to invest but not any income or capital benefits of doing so, the ongoing costs of running the company, but not the income derived from it, and the ongoing costs of any underlying investments in funds within the Company's portfolio.	**10 EUR**
Transaction costs	**0.02%** The impact of the costs of us buying and selling underlying investments for the product.	**2 EUR**
Incidental costs taken under specific conditions		**Annual cost impact if you exit after 1 year**
Performance fees	**0.00%** The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	**0 EUR**

How long should I hold it and can I take money out early?

Recommended holding period: 3 years

This Fund is designed for medium to longer term investments; you should be prepared to stay invested for at least 3 years. However, you can redeem your investment without penalty at any time during this period, or hold the investment longer. Redemptions are possible on every working day; it will take 2 business days for you to be paid. The price for the day, reflecting the actual value of the Fund, is set each day after the valuation point, and published on our website www.ssga.com.

As the shares are listed on the stock exchange, you may buy or sell shares in the product, without penalty, on any normal business day. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

ETF Shares purchased on the secondary market cannot usually be sold directly back to the Company. In exceptional circumstances, whether as a result of disruptions in the secondary market or otherwise, investors who have acquired ETF Shares on the secondary market are entitled to apply to the Company in writing to have the ETF Shares in question registered in their own name, to enable them to access the redemption facilities described in the "Primary Market" section.

How can I complain?

If you have a complaint about the Fund or the Manager, you can find more details about how to complain and the Manager's complaint handling policy in the "Contact Us" section of the website at: www.ssga.com.
