## What are the risks and what could I get in return?

### Risks

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the

product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 2 out of 7, which is a low risk category.

This rates the potential losses from future performance at a low level, and poor market conditions are very unlikely to impact the capacity of State Street Global Advisors Europe Limited to pay you.

**Be aware of currency risk.** You may receive payments in a different currency, so the performance of your investment will be impacted by the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Besides the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the Fund Prospectus, available free of charge at [www.ssga.com](http://www.ssga.com).

## Performance scenarios

The figures shown include all the costs of the Fund other than the costs that you may need to pay to your advisor, distributor or other intermediary. The figures do not take into account your personal tax situation, which may also affect your return.

**What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.**

**The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.**

The stress scenario shows what you might get back in extreme market circumstances.

**Unfavourable:** this type of scenario occurred for an investment between March 2021 and March 2022.

**Moderate:** this type of scenario occurred for an investment between October 2016 and October 2017.

**Favourable:** this type of scenario occurred for an investment between November 2023 and November 2024.

## What happens if the Fund Manager is unable to pay out?

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Company or the depositary is unable to pay out.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Fund. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR	if you exit after 1 year (recommended holding period)
Total Costs	15 EUR
Annual cost impact*	0.2%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be -0.3% before costs and -0.5% after costs.

## Composition of costs
