What is this product?

Type

The Fund is a unit trust incorporated in Ireland authorised by the Central Bank of Ireland as a UCITS.

Term

The Trust is an open ended unit trust incorporated for an unlimited period. However, it may be dissolved at any time by a resolution passed at a general meeting of Unitholders adopted in compliance with applicable laws.
This Fund has no maturity date. However, it may be terminated and liquidated by the decision of the Board under specific conditions set forth in the Prospectus.

Objectives

The objective of the Fund is to achieve a return in excess of the ICE BofA Euro Currency 3-Month Deposit Bid Rate Constant Maturity Index by investing in a diversified portfolio of investment grade debt and debt related instruments.

Investment policies The Fund invests in a diversified portfolio of high quality money market instruments, short term debt and debt related instruments which are transferable securities. These instruments will be listed or traded on regulated markets. The Fund invests primarily in instruments denominated in Euro. The Fund may invest in debt securities which are issued by governments, banks, corporations, and other financial institutions. The Fund will only invest in securities which have an investment grade credit rating and have expected maturities of less than five years. The Fund is actively managed. The benchmark is used for performance comparison purposes only. The benchmark does not influence the Fund's portfolio.

The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently and/or for hedging purposes.
Unit holders may redeem units in the Fund upon demand each Wednesday that is also a business day in Ireland.
Any income earned by the Fund will be retained and reflected in an increase in the value of the units.
The Fund's units are issued in Euro.

Intended retail investor

This Fund is intended for investors who plan to stay invested for up to 1 year or less and are prepared to take on a low-medium level of risk of loss to their original capital in order to get a higher potential return. It is designed to form part of a portfolio of investments.

Practical information

Depositary The Fund depositary is Northern Trust Fiduciary Services (Ireland) Limited.

What are the risks and what could I get in return?

Risks

The risk category above shows how likely the fund is to lose money because of movements in the markets or because we are not able to pay you. The Fund's risk category is not guaranteed and may change in the future.

We have classified this product as 1 out of 7, which is the lowest risk category.
This rates the potential losses from future performance at a very low level, and poor market conditions are very unlikely to impact the capacity of State Street Global Advisors Europe Limited to pay you.
Be aware of currency risk. You may receive payments in a different currency, so the performance of your investment will be impacted by the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
Besides the risks included in the risk indicator, other risks may affect the fund performance. Please refer to the Fund Prospectus, available free of charge at www.ssga.com.

Performance scenarios

The figures shown include all the costs of the Fund other than the costs that you may need to pay to your advisor, distributor or other intermediary. The figures do not take into account your personal tax situation, which may also affect your return.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between March 2019 and March 2020.

Moderate: this type of scenario occurred for an investment between February 2019 and February 2020.

Favourable: this type of scenario occurred for an investment between July 2022 and July 2023.

What happens if the Fund Manager is unable to pay out?

The Manager is responsible for administration and management of the Company, and does not typically hold assets of the Company (assets that can be held by a depositary are, in line with applicable regulations, held with a depositary in its custody network). The Manager, as the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Company or the depositary is unable to pay out.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the Fund. The amounts shown here are illustrations based on a specific investment amount, taking into consideration different holding periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- 10,000 EUR is invested.

Example Investment 10,000 EUR		if you exit after 1 year (recommended holding period)
Total Costs		7 EUR
Annual cost impact*		0.1%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 0.1% before costs and -0.0% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% The impact of the costs you pay when entering your investment. This is the most you will pay, and you could pay less. The impact of costs are already included in the price. This includes the costs of distribution of your product.	0 EUR
Exit costs	0.00% The Impact of the costs of exiting your investment when it matures.	0 EUR
Ongoing costs taken each year		Annual cost impact if you exit after 1 year
Management fees and other administrative or operating costs	0.05% The impact of the costs that we take each year for managing your investments. This will include the costs of borrowing money to invest but not any income or capital benefits of doing so, the ongoing costs of running the company, but not the income derived from it, and the ongoing costs of any underlying investments in funds within the Company's portfolio.	5 EUR
Transaction costs	0.02% The impact of the costs of us buying and selling underlying investments for the product.	2 EUR
Incidental costs taken under specific conditions		Annual cost impact if you exit after 1 year
Performance fees	0.00% The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	0 EUR
