What is this product?

Type

This Fund is an open-ended public limited company (société anonyme) with variable capital (société d'investissement à capital variable or SICAV) which was incorporated in Luxembourg on 22 September 2008 under registration number B141.816 and is authorised by the CSSF as a UCITS.

Term

The Company is an open-ended public limited company incorporated for an unlimited period. However, it may be dissolved at any time by a resolution passed at a general meeting of Shareholders adopted in compliance with applicable laws.
This Fund has no maturity date. However, it may be terminated and liquidated by the decision of the Board under specific conditions set forth in the Prospectus.

Objectives

Investment objective The objective of the Fund is to provide a return in excess of the performance of emerging market equities.

Investment policies The investment policy of the Fund is to outperform MSCI Emerging Markets Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) over the medium and long term while investing in companies which exhibit lower carbon emissions in the way of current emissions and future emissions (measured by fossil fuel reserves), produce green revenues, and are better positioned for the physical risks posed by climate change and screening out securities based on an assessment of their adherence to certain ESG criteria.
The Fund promotes environmental or social characteristics in accordance with SFDR Article 8. These environmental and social characteristics are detailed in the SFDR Annex of the Fund's Supplement.
The Investment Manager applies a negative and norms-based screen to the Fund to screen out securities based on an assessment of their adherence to ESG criteria including securities of companies identified as being non-compliant with UNGC Principles (relating to environmental protection, human rights, labour standards, anti-corruption), and securities of companies associated with Severe ESG Controversies, tobacco, alcohol, adult entertainment, gambling, civilian firearms and controversial weapons. By applying the relevant negative and norms-based screen, the Investment Manager deems the Fund's sustainable investments not to cause significant harm to any environmental or social sustainable investment objective.

The securities in the portfolio are selected primarily from the securities in the index. The Fund may invest in or gain exposure to securities registered in or trading in markets other than those included in the index. The investment strategy uses defined risk parameters that mean the fund's weighting to countries, sectors and securities relative to the respective index will be limited. This is likely to limit the extent to which the Fund can outperform the MSCI Emerging Markets Index.

In order to achieve its investment objective, this Fund will only invest in:

- Equities and equity-related securities. The Fund may invest in China A Shares both via Stock Connect and RQFII regime;
- Other funds;
- Liquid assets; and
- Derivatives for efficient portfolio management and investment purposes, limited to swaps, options, futures and forward foreign exchange contracts.

The Fund may lend up to 40% of the securities it owns.

The Shares of the USD Class are issued in U.S. Dollar.

Shareholders may redeem shares on any Luxembourg, U.K and U.S business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Save in exceptional circumstances, the Fund will generally only issue and redeem shares to certain institutional investors. However, shares of the Fund may be purchased or sold through brokers on one or more stock exchanges. The Fund trades on these stock exchanges at market prices which may fluctuate throughout the day. Market prices may be greater or less than the daily net asset value of the Fund.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.
