State Street GBP Liquidity LVNAV Fund (the "Fund"), a sub-fund of State Street Liquidity Plc. This Fund is managed by State Street Global Advisors Limited, part of the State Street Corporation.

Share Class: Global Securities Lending Shares (ISIN IE00B4YWYX09)

OBJECTIVES AND INVESTMENT POLICY

Investment Objective

The objective of the Fund is to maintain a high level of liquidity, preserve capital and provide a return in line with Pound Sterling money market rates.

Investment Policy

In order to achieve its investment objective, the Fund invests in a range of investment grade fixed and adjustable rate money market instruments which are transferable securities and primarily denominated in Pound Sterling. These instruments pay a rate of interest to the Fund. This rate of interest is the Fund's only source of return.

The Fund invests in debt securities which are issued by governments, banks, corporations and other financial institutions. The Fund can only invest in securities which have the highest short-term credit ratings.

The investment manager conducts in-depth analysis on each investment which the Fund makes and chooses investments it believes will provide a stable return and remain easy to sell until it is repaid.

The Fund is actively managed. The benchmark is used for performance comparison purposes only. The benchmark does not influence the fund's portfolio.

The Fund is classified as a Low-Volatility NAV Money Market Fund.

The Fund itself is also rated by one or more credit rating agencies (that is, companies that rate the ability of the issuers of debt securities to repay borrowed money). To maintain these highest credit ratings, the Fund's investments are tightly controlled and closely monitored by each agency. The rating is solicited and financed by the Fund.

The Class, Global Securities Lending Shares seek to maintain a stable Net Asset Value per share however this may not be guaranteed.

The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

Shareholders may redeem shares on any business day other than days on which the relevant financial markets are closed for business in the United Kingdom; and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be paid to shareholders in respect of the shares.

The Fund's shares are issued in Pound Sterling.

Please refer to the Prospectus for more information.

RISK AND REWARD PROFILE

Risk Disclaimer

The risk category above is not a measure of capital loss or gains but of how significant the rises and falls in the Fund's return have been historically.

For example a fund whose return has experienced significant rises and falls will be in a higher risk category, whereas a fund whose return has experienced less significant rises and falls will be in a lower risk category.

The lowest category (i.e., category 1) does not mean that a fund is a risk free investment.

As the Fund's risk category has been calculated using historical data, it may not be a reliable indication of the Fund's future risk profile.

The Fund's risk category shown is not guaranteed and may change in the future.

Why is this Fund in this category?

The Fund is in risk category 1 as its return has experienced relatively low rises and falls historically.

The following are material risks relevant to the Fund which are not adequately captured by the risk category.

Liquidity Risk: Lack of a ready market or restrictions on resale may limit the ability of the Fund to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. Illiquidity of the Fund's holdings may limit the ability of the Fund to obtain cash to meet redemptions on a timely basis.

Credit Risk: The value of debt securities that the Fund purchases may be impacted by the ability of the issuer of those securities to pay the amounts of interest and principal owed as they become due. An actual or perceived decline in creditworthiness of an issuer of debt securities held by the Fund may result in a decrease in the value of the relevant securities.

Please refer to the Prospectus for full details about the risks associated with this Fund.
