STATE STREET GLOBAL ADVISORS

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Terms not defined herein are as defined in the Prospectus.

State Street Emerging Markets ESG Local Currency Government Bond Index Fund (the "Fund"), a sub-fund of

State Street Global Advisors Luxembourg SICAV. This Fund is managed by State Street Global Advisors Europe Limited.

Share Class: I (ISIN LU2008206570)

Objectives and Investment Policy

Investment Objective The objective of the Fund is to track the performance of investible local currency denominated, emerging markets sovereign bonds.

Investment Policy The Fund is an index tracking fund (also known as a passively managed fund).

The investment policy of the Fund is to track the performance of the J.P. Morgan ESG-Government Bond Index Emerging Markets Global Diversified Index as closely as possible while seeking to minimize as far as possible the tracking difference between the Fund's performance and that of the Index. The Index measures the performance of investible local currency emerging markets bonds, screened based on certain Environmental, Social and Governance (ESG) criteria. The Index will also overweight Green Bond issuances. The Index limits country exposure to a maximum of 10% and redistributes the excess market value Index-wide on a pro-rata basis. To be included in the Index, securities must meet the country inclusion criteria, be fixed rate coupon instruments, have more than 13 months to maturity remaining and meet any other criteria as defined in the index methodology. The Investment Manager, on behalf of the Fund, will invest using the Stratified Sampling Strategy as further described in the "Investment Techniques" section of the Prospectus, primarily in the securities of the Index, at all times in accordance with the investment restrictions set forth in the Prospectus. The Investment Manager also may, in exceptional circumstances, invest in securities not included in the Index that it believes closely reflect the risk and distribution characteristics of securities of the Index.

In order to achieve its investment objective, this Fund will only invest in:

- Government and government-related bonds from issuers in emerging markets. The Fund may invest in China bonds acquired on the CIBM through the CIBM Direct Access Programme;
- Other funds;
- Liquid assets; and
- Derivatives for efficient portfolio management and investment purposes, limited to forward foreign exchange contracts, futures, options and swaps.

The Fund may lend up to 70% of the securities it owns.

The Shares of the USD Class are issued in U.S. Dollar.

Shareholders may redeem shares on any Luxembourg and UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on **www.ssga.com**); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.

Any income earned by the Fund will be retained and reflected in an increase in the value of the shares.

Please refer to the Prospectus for more information.

Risk and Reward Profile

Lower risk Potentially lower reward — **Higher risk** Potentially higher reward

1	2	3	4	**5**	6	7

Risk Disclaimer The risk category above is not a measure of capital loss or gains but of how significant the rises and falls in the Fund's return have been historically.

For example a fund whose return has experienced significant rises and falls will be in a higher risk category, whereas a fund whose return has experienced less significant rises and falls will be in a lower risk category.

The lowest category (i.e., category 1) does not mean that a fund is a risk free investment.

As the Fund's risk category has been calculated using historical simulated proxy data, it may not be a reliable indication of the Fund's future risk profile.

The Fund's risk category shown is not guaranteed and may change in the future.

Why is this Fund in this category? The Fund is in risk category 5 as its return has experienced medium rises and falls historically.

The following are material risks relevant to the Fund which are not adequately captured by the risk category.

Currency Hedging Risk: Hedges are sometimes subject to imperfect matching between the hedging transaction and the risk sought to be hedged. There can be no assurance that the Fund's hedging transactions will be effective. As the purpose of currency hedging is to try to reduce or eliminate losses caused by exchange rate fluctuations, it can also reduce or eliminate gains where the currency in which the Fund's assets are denominated appreciates.

Index Tracking Risk: The Fund's return may not match the return of the Index. The Fund's ability to track the Index will be affected by Fund expenses, the amount of cash and cash equivalents held in its portfolio, and the frequency and the timing of purchases and sales of interests in the Fund. The Investment Manager may attempt to replicate the Index return by investing in a sub-set of the securities in the Index, or in some securities not included in the Index, potentially increasing the risk of divergence between the Fund's return and that of the Index.

Liquidity Risk: Lack of a ready market or restrictions on resale may limit the ability of the Fund to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. Illiquidity of the Fund's holdings may limit the ability of the Fund to obtain cash to meet redemptions on a timely basis.

Share Class Risk: There is no segregation of liabilities between Classes of the Fund. While the Investment Manager will seek to ensure that gains/losses on and the costs of the relevant derivative instruments associated with any currency hedging strategy will accrue solely to the Class for which it is intended, the transactions could result in liabilities for other Classes.

Screening Risk: There is a risk that the screen provider may make errors, such as incorrect assessment of the screen criteria and/or include incorrect/exclude correct constituents in the screening process or discontinue its screening services. In such circumstances, the Company may change the screen provider although there is no guarantee that a replacement screen provided would result in a similar screening process to that intended or would be available at all.

People's Republic of China (PRC) Investments Risk: In addition to the risks of investing in emerging markets, risks of investing in PRC Investments include, among others, trading suspensions, currency transfer/exposure restrictions, limits on holdings of PRC Investments and use of brokers, untested concepts regarding treatment of beneficial ownership, reliance on Access Programmes which may be discontinued or substantially changed, custody risks including lack of sufficient segregation of assets from those of the applicant for the CIBM Direct Access Programme and Sub-Custodian and tax uncertainty.

Securities Lending Risk: If the Fund engages in securities lending, there is a risk that the borrower may default its obligations to return equivalent securities to the loaned securities. In this way the Fund is exposed to counterparty risk. In this event, the Fund could also experience delays in recovering the securities and may incur a capital loss. The Fund could also lose money if the value of collateral held against the loaned securities falls.

SFDR - Fund Classification Risk: The SFDR has phased implementation from 10 March 2021 and imposes new disclosure obligations on financial market participants. As at the date of this Prospectus, the implementing Regulatory Technical Standards (Level 2) for SFDR have been adopted by the EU Commission. Certain concepts introduced by SFDR are not currently the subject of centralised implementing standards, local guidance or

established market practice. The Funds have been assessed and classified in good faith based on the relevant information currently available. As these standards and guidance develop, the SFDR related disclosures and **the Article 8** classification indicated in the Supplement and on the Website are subject to change and may no longer apply.

Please refer to the Prospectus for full details about the risks associated with this Fund.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	2.00%

This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).

Charges taken from the Fund over a year	
Ongoing charge	0.30%
Charges taken from the Fund under certain specific conditions	
Performance fee	none

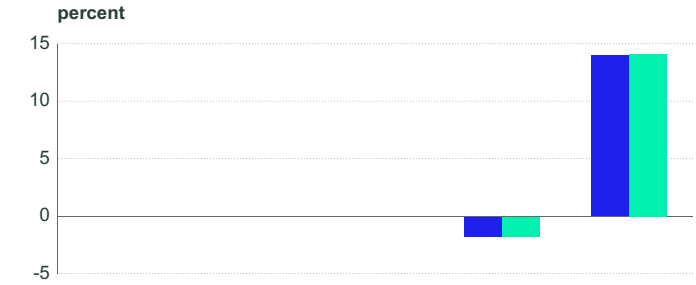

The entry and exit charges shown are maximum figures. In some cases, you might pay less – you can find this out from your financial advisor or distributor.

The ongoing charges figure is based on expenses for the year ending December 2023. This figure may vary from year to year. It excludes:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the Fund when buying or selling units in another fund.

For more information about charges please refer to the "Fees and Expenses" section of the Prospectus and the Fund Supplement.

Past Performance

	2019	2020	2021	2022	2023
State Street Emerging Markets ESG Local Currency Government Bond Index Fund I (LU2008206570)				-1.7	14.0
J.P. Morgan ESG GBI-EM Global Diversified Index				-1.7	14.1

Past performance is not a guide to future results.

The past performance shown here takes account of all charges and costs. The entry/exit charges are excluded from the calculation of past performance.

The Fund was launched in December 2021.

The Class I Shares were launched in December 2021.

Past performance has been calculated in U.S. Dollar and is expressed as a percentage change in the Fund's net asset value at each year end.

Practical Information

Depositary State Street Bank International GmbH, Luxembourg Branch.

Further Information Copies of the Prospectus, its Supplements and the latest annual and semi-annual reports prepared for State Street Global Advisors Luxembourg SICAV may be obtained, free of charge, from the Administrator or online at **www.ssga.com**.
