Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest. Terms not defined herein are as defined in the Prospectus.

State Street World Screened Index Equity Fund (the "Fund"), a

sub-fund of State Street Global Advisors Luxembourg SICAV. This Fund is managed by State Street Global Advisors Europe Limited.

Share Class: B GBP Portfolio Hedged Distributing (ISIN LU2545195963)

Objectives and Investment Policy

Investment Objective The objective of the Fund is to track the performance of global developed equity markets.
Investment Policy The Fund is an index tracking fund (also known as a passively managed fund).
The investment policy of the Fund is to track the performance of the MSCI World Screened Choice Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible while seeking to minimize as far as possible the tracking difference between the Fund's performance and that of the Index.
The Index represents the performance of the broad global developed equity markets while excluding companies that fail to comply with UNGC Principles or are associated with controversial weapons, civilian firearms, nuclear weapons, fossil fuel extraction, thermal coal power, and tobacco. Consequently, the attainment of the associated environmental and social characteristics is measured through the Index exclusions of companies that are associated with controversial weapons, civilian firearms, nuclear weapons, fossil fuel extraction, thermal coal power, and tobacco and the companies that fail to comply with the UNGC Principles. The proportion of the Fund's portfolio invested in securities included in the Index will constitute sustainability indicator used to measure the attainment
of each of the environmental or social characteristics promoted by the Fund.
The Investment Manager, on behalf of the Fund, will invest using the Replication Strategy as further described in the ""Investment Strategies"" section of the Prospectus, primarily in the securities of the Index, at all times in accordance with the Investment Restrictions set forth in the Prospectus. The Investment Manager also may, in exceptional circumstances, invest in securities not included in the Index but that it believes closely reflect the risk and distribution characteristics of securities of the Index.
The Investment Manager integrates Sustainability Risk into its investment decisions as further described in the ""ESG Integration"" sub-section of the ""ESG Investing"" section of the Prospectus.
In order to achieve its investment objective, this Fund will only invest in:

- Equities and equity-related securities;
- Other funds;
- Liquid assets; and
- Derivatives for efficient portfolio management, limited to swaps, options, futures and forward foreign exchange contracts.

The Fund may lend up to 40% of the securities it owns.
This GBP Hedged Class is made available to reduce exchange rate fluctuations between the currency of this Share Class and the currency in which the underlying assets of the Fund are denominated. The Share Class will be hedged back to GBP and consequently should more closely track the corresponding hedged version of the Index (MSCI World Screened Choice Index).
The Shares of the GBP Class are issued in Pound Sterling.
The Fund may not be appropriate for investors who plan to withdraw their money within five years.
Shareholders may redeem shares on any Luxembourg and UK business day (other than days on which relevant financial markets are closed for business and/or the day preceding any such day provided that a list of such closed market days will be published for the Fund on www.ssga.com); and any other day at the Directors' discretion (acting reasonably) provided Shareholders are notified in advance of any such days.
Any income earned by the Fund will be paid to shareholders in respect of the shares.

Risk and Reward Profile

Lower risk Potentially lower reward — **Higher risk** Potentially higher reward

1	2	3	4	**5**	6	7

Risk Disclaimer The risk category above is not a measure of capital loss or gains but of how significant the rises and falls in the Fund's return have been historically.
For example a fund whose return has experienced significant rises and falls will be in a higher risk category, whereas a fund whose return has experienced less significant rises and falls will be in a lower risk category.
The lowest category (i.e., category 1) does not mean that a fund is a risk free investment.
As the Fund's risk category has been calculated using historical simulated proxy data, it may not be a reliable indication of the Fund's future risk profile.
The Fund's risk category shown is not guaranteed and may change in the future.
Why is this Fund in this category? The Fund is in risk category 5 as its return has experienced medium rises and falls historically.

The following are material risks relevant to the Fund which are not adequately captured by the risk category.
Currency Hedging Risk: Hedges are sometimes subject to imperfect matching between the hedging transaction and the risk sought to be hedged. There can be no assurance that the Fund's hedging transactions will be effective. As the purpose of currency hedging is to try to reduce or eliminate losses caused by exchange rate fluctuations, it can also reduce or eliminate gains where the currency in which the Fund's assets are denominated appreciates.
Index Tracking Risk: The Fund's return may not match the return of the Index. The Fund's ability to track the Index will be affected by Fund expenses, the amount of cash and cash equivalents held in its portfolio, and the frequency and the timing of purchases and sales of interests in the Fund. The Investment Manager may attempt to replicate the Index return by investing in a sub-set of the securities in the Index, or in some securities not included in the Index, potentially increasing the risk of divergence between the Fund's return and that of the Index.
Securities Lending Risk: If the Fund engages in securities lending, there is a risk that the borrower may default its obligations to return equivalent securities to the loaned securities. In this way the Fund is exposed to counterparty risk. In this event, the Fund could also experience delays in recovering the securities and may incur a capital

loss. The Fund could also lose money if the value of collateral held against the loaned securities falls.
Share Class Risk: There is no segregation of liabilities between Classes of the Fund. While the Investment Manager will seek to ensure that gains/losses on and the costs of the relevant derivative instruments associated with any currency hedging strategy will accrue solely to the Class for which it is intended, the transactions could result in liabilities for other Classes.

Integrating Sustainability Risk: Integrating Sustainability Risk into the Fund's investment process does not assure the mitigation of any or all Sustainability Risk. Any deterioration in the financial profile of an underlying investment affected by a Sustainability Risk may have a corresponding negative impact on the Net Asset Value and/or performance of the investing Fund.
Please refer to the Prospectus for full details about the risks associated with this Fund.

Charges

The charges you pay are used to pay the cost of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	0.00%
Exit charge	none

This is the maximum that might be taken out of your money before it is invested (entry charge) or before the proceeds of your investment are paid out (exit charge).
