Fund Objective

The objective of the Fund is to maintain a high level of liquidity, preserve capital and provide a return in line with Euro money market rates.

Investment Strategy

The Investment Manager, on behalf of the Fund, combines a relative value approach (i.e. where an asset's value is determined by taking into account the value of similar assets, looking for those that are "mispriced" relative to each other and aiming at exploiting such pricing discrepancies for the benefit of the Fund) to investing with credit quality analysis (as described in the "Credit Quality Assessment" section of the Prospectus) to identify securities that it believes will provide the greatest stability of capital and the highest probability of repayment, consistent with the Fund's investment objective.

Investments will be purchased with the intention that they will be held until maturity although the Investment Manager may, in its sole discretion, not hold investments to maturity.

IMMFA Member

SSGA is a member of the Institutional Money Market Funds Association (IMMFA), the trade association for AAA-rated European money market funds.

Past performance is not a guarantee of future results.

Investing involves risk including the risk of loss of capital.

Yield figures are shown annualised and net of fees.

"1 Year" figures are rolling yields.

"3 Year" yield figures are shown for the three year period as of the previous year end.

The performance is calculated in Euro.

Benchmark returns are unmanaged and do not reflect the deduction of any fees or expenses. Benchmark returns reflect all items of income, gain and loss and the reinvestment of dividends and other income as applicable.

A yield of zero may indicate a fee waiver by the investment manager.

¹ Short-term ratings from S&P are used. If no short-term rating is available, the lower long-term rating is used. S&P deems the investments rated 'A-1' maturing in 7 days or less equivalent to 'A-1+'. This document reflects actual issue ratings.

Due to the use of RDM no longer being allowed, the EUR Liquidity LVNAV Fund classes are all currently de-accumulating income. In this process the NAV will decrease by the negative income of the fund each day. This changes the fund accounting methodology from a type that treats negative income as income, to one which treats this income as a capital de-accumulation.

On the 18th February 2019 the NAV value was converted from €1.00 per unit, to €1000.0000 per unit. This allows the full negative income movement to be captured in the price, providing additional transparency and accuracy, as well as resulting in a smoother movement in the unit price. The conversion factor used was 1:1000.

The change in NAV value per unit does not change the value of the account as there is no difference in value under these two methods.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period.

Rounding differences may occur as asset values are calculated to greater than one decimal place.

State Street Global Advisors Liquidity Public Limited Company ("the Company") is an umbrella type investment company with variable capital having segregated liability between its sub-funds. The Company is organised as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the laws of Ireland and authorised as a UCITS by the Central Bank of Ireland. The Company is a recognised scheme under Section 264 of the Financial Services and Markets Act 2000 ("the Act") and is directed at 'professional clients' in the UK (within the meaning of the rules of the Act) who are deemed both knowledgeable and experienced in matters relating to investments. The products and services to which this communication relates are only available to such persons and persons of any other description should not rely on this communication. Many of the protections provided by the UK regulatory system do not apply to the operation of the Company, and compensation will not be available under the UK Financial Services Compensation Scheme. Investments in asset backed and mortgage backed securities are subject to prepayment risk which can limit the potential for gain during a declining interest rate environment and increases the potential for loss in a rising interest rate environment.

The information contained in this communication is not a research recommendation or 'investment research' and is classified as a 'Marketing Communication' in accordance with the Markets in Financial Instruments Directive (2014/65/EU) or applicable Swiss regulation. This means that this marketing communication (a) has not been prepared in accordance with legal requirements designed to promote the independence of investment research (b) is not subject to any prohibition on dealing ahead of the dissemination of investment research.
