Fund Objective

The investment objective of State Street Federal Treasury Plus Money Market Fund (the "Treasury Plus Fund" or sometimes referred to in context as the "Fund") is to seek a high level of current income consistent with preserving principal and liquidity and the maintenance of a stable \$1.00 per share net asset value ("NAV").

Investment Strategy

The Treasury Plus Fund attempts to meet its investment objective by investing only in U.S. Treasury bills, notes and bonds (which are direct obligations of the U.S. government) and repurchase agreements collateralized by these obligations. The Fund invests in accordance with regulatory requirements applicable to money market funds, which require, among other things, the Fund to invest only in short-term securities (generally, securities that have remaining maturities of 397 calendar days or less), to maintain a maximum dollar-weighted average maturity of sixty (60) days or less, and to meet requirements as to portfolio diversification and liquidity.

The Fund seeks to achieve its investment objective by investing substantially all of its investable assets in the Treasury Plus Portfolio, which has substantially similar investment policies to the Fund. When the Fund invests in this "master-feeder" structure, the Fund's only investments are shares of the Portfolio, and it participates in the investment returns achieved by the Portfolio.

¹ Expense Limitations and Reductions. From time to time, SSGA FM, as the investment adviser to the Funds, may enter into a contractual agreement to waive a portion of its management fee and/or reimburse certain expenses (a "Contractual Expense Limitation"). As of the date of the Prospectus, SSGA FM has not entered into any Contractual Expense Limitations for the Funds. In addition to any applicable contractual expense limitation for a Fund, each of SSGA FM and State Street Global Advisors Funds Distributors, LLC, as distributor to the Funds, also may voluntarily reduce all or a portion of its fees and/or reimburse expenses for a Fund or a share class to the extent necessary to maintain a certain minimum net yield, which may vary from time to time and from share class to share class within a Fund, in SSGA FM's sole discretion.

² 7 Day Yield is as of the 7-day period ending the last business day of the month indicated. The yield quotation stated above more closely reflects the current earnings of the Fund than the total return quotation.

[†] The subsidized yield reflects the yield calculation with voluntary reduction currently in effect. Without the reduction returns would have been lower.

Important Risk Information

State Street Global Advisors Funds Management, Inc. ("SSGA FM") serves as the investment adviser

to the Fund.

Bonds generally present less short-term risk and volatility than stocks, but contain interest rate risk (as interest rates raise, bond prices usually fall); issuer default risk; issuer credit risk; liquidity risk; and inflation risk. These effects are usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss.

90-day Treasury bills are insured and guaranteed by the government. Treasury bills maintain a stable value if held to maturity, but returns are generally only slightly above the inflation rate. Investing involves risk including the risk of loss of principal.
