

State Street Institutional Treasury Money Market Fund — Cabrera Capital Markets Class

Fund Objective

The investment objective of State Street Institutional Treasury Money Market Fund is to seek a high level of current income consistent with preserving principal and liquidity and the maintenance of a stable \$1.00 per share net asset value ("NAV").

Investment Strategy

The Treasury Fund attempts to meet its investment objective by investing only in U.S. Treasury bills, notes and bonds (which are direct obligations of the U.S. government). The Fund invests in accordance with regulatory requirements applicable to money market funds, which require, among other things, the Fund to invest only in short-term securities (generally, securities that have remaining maturities of 397 calendar days or less), to maintain a maximum dollar-weighted average maturity of sixty (60) days or less, and to meet requirements as to portfolio diversification and liquidity. The Fund seeks to achieve its investment objective by investing substantially all of its investable assets in the Treasury Portfolio, which has substantially similar investment policies to the Fund. When the Fund invests in this "master-feeder" structure, the Fund's only investments are shares of the Portfolio, and it participates in the investment returns achieved by the Portfolio.

Distribution Calculations: (Security Distribution, Quality Distribution, Maturity Distribution and Sector Distribution) are measured on a trade date basis and exclude uninvested cash from the market value used to compute the percentage calculations.

The Fund's investment adviser, SSGA Funds Management, Inc. (the "Adviser" or "SSGA FM") and its affiliates, may voluntarily reduce all or a portion of their fees and/or reimburse expenses of the Fund or a share class to the extent necessary to maintain a certain minimum net yield, which may vary from time to time and from share class to share class within the Fund, in SSGA FM's sole discretion (any such waiver or reimbursement of expenses being referred to herein as a "Voluntary Reduction"), or a yield below a specified level, which may vary from time to time in the Adviser's sole discretion. The Fund has agreed, subject to certain limitations, to reimburse the Adviser and its affiliates for the full dollar amount of any Voluntary Reduction incurred beginning on May 1, 2020. During the fiscal year ended December 31, 2021, the Adviser and its affiliates waived fees and/or reimbursed expense under the Voluntary Reduction. Each of

the Adviser and its affiliates may, in its sole discretion, irrevocably waive receipt of any or all reimbursement amounts due from the Fund. Any future reimbursement by the Fund of the Voluntary Reduction would increase the Fund's expenses and may reduce the Fund's yield during such period. There is no guarantee that the Voluntary Reduction will be in effect at any given time or that the Fund will be able to avoid a negative yield.

Important Risk Information

State Street Global Advisors Funds Management, Inc. ("SSGA FM") serves as the investment adviser to the Fund. State Street Global Advisors Limited, an affiliate of SSGA FM, serves as investment sub-adviser to the Fund.

Bonds generally present less short-term risk and volatility than stocks, but contain interest rate risk (as interest rates raise, bond prices usually fall); issuer default risk; issuer credit risk; liquidity risk; and inflation risk. These effects are usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss. 90-day Treasury bills are insured and guaranteed by the government. Treasury bills maintain a stable value if held to maturity, but returns are generally only slightly above the inflation rate. Investing involves risk including the risk of loss of principal.
