

# SPDR® Gold Shares

## Fund Objective

The SPDR Gold Trust (the 'Trust') is a standalone investment trust formed under New York law. The Trust holds gold bullion and issues SPDR Gold Shares (the 'Shares') which represent units of fractional undivided beneficial interest in, and ownership of, the Trust. The investment objective of the Trust is for the Shares to reflect the performance of the price of gold bullion, less the Trust's expenses. The Shares are traded on the Singapore Exchange Securities Trading Limited ("SGX-ST") at market prices throughout the trading day. The Shares are also listed on the NYSE Arca, Inc. ("NYSE Arca") and the Stock Exchange of Hong Kong Limited ("SEHK").

## The Price of Gold

The spot price for gold bullion is determined by market forces in the 24-hour global over-the-counter (OTC) market for gold. The OTC market accounts for most global gold trading, and prices quoted reflect the information available to the market at any given time. The price, holdings, and net asset value of the Shares, as well as market data for the overall gold bullion market, can be tracked daily at [www.spdrgoldshares.com](http://www.spdrgoldshares.com).

Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. Performance quoted represents past performance, which is not necessarily indicative of future performance. Current performance may be higher or lower than that quoted. Backed by Physical Gold	The Shares represent fractional, undivided interests in the Trust, the primary asset of which is allocated gold.
Transparent	There exists a 24-hour global over-the-counter market for gold bullion, which provides readily available market data. The price, holdings and net asset value of the Shares, as well as market data for the overall gold bullion market, can be tracked daily at <a href="http://www.spdrgoldshares.com">www.spdrgoldshares.com</a> .

All the information contained in this document is as of date indicated unless otherwise noted. All information is from SSGA unless otherwise noted and has been obtained from sources believed to be reliable, but its accuracy is not guaranteed. There is no representation or warranty as to the current accuracy, reliability or completeness of, nor liability for, decisions based on such information and it should not be relied on as such. The information provided does not constitute investment advice and it should not be relied on as such. It should not be considered a solicitation to buy or an offer to sell a security. It does not take into account any investor's particular investment objectives, strategies, tax status or investment horizon. You should consult your tax and financial advisor. All forms of investments carry risks, including the risk of losing all of the invested amount. Such activities may not be suitable for everyone. These investments may have difficulty in liquidating an investment position without taking a significant discount from current market value, which can

be a significant problem with certain lightly traded securities. In general, ETFs can be expected to move up or down in value with the value of the applicable index. Brokerage commissions and ETF expenses will reduce returns. Frequent trading of ETFs could significantly increase commissions and other costs such that they may offset any savings from low fees or costs. The Shares trade like stocks, are subject to investment risk and will fluctuate in market value. The value of the Shares relates directly to the value of the gold held by the Trust (less its expenses), and fluctuations in the price of gold could materially and adversely affect an investment in the Shares. The price received upon the sale of the Shares, which trade at market price, may be more or less than the value of the gold represented by them. The Trust does not generate any income, and as the Trust regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Share will decline over time to that extent. The value of units in the Trust may fall or rise. Past performance of the Trust is not indicative of future performance. The prospectus in respect of the Singapore offer of the shares in the Trust is available and may be obtained upon request from State Street Global Advisors Singapore Limited ("SSGA")

(Co. Reg. No: 200002719D). Investors should read the prospectus of the Trust before deciding whether to purchase Shares. Shares in the Trust are not obligations of, deposits in, or guaranteed by, World Gold Trust Services, LLC, SSGA or any of their affiliates. The value of Shares and income accruing to such Shares may fall or rise. You should consider whether the Trust is suitable for you. If in doubt, you may wish to seek advice from a financial advisor before making a commitment to purchase Shares. Investors have no right to request the Sponsor to redeem their Shares while the Shares are listed. It is intended that holders of Shares may only deal in their Shares through trading on the SGX-ST. Listing of the Shares on the SGX-ST does not guarantee a liquid market for the Shares.
