

# SPDR<sup>®</sup> MSCI Europe Technology UCITS ETF

Fact Sheet  
Equity

31 October 2023

## Fund Objective

The investment objective of the Fund is to track the performance of European large and mid-sized companies in the Information Technology sector.

## Index Description

The MSCI Europe Information Technology 35/20 Capped Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of constituents classified as Information Technology (according to the Global Industry Classification Standard) in the MSCI Europe index.

## Tax Status

As standard, SSGA aims to meet all applicable tax reporting requirements for all of the SPDR ETFs in the following countries. Applications are made throughout the year depending on the time scale required by each local tax authority: UK, Germany, Austria, Switzerland.

## Countries of Registration

United Kingdom, Switzerland, Sweden, Spain, Norway, Netherlands, Luxembourg, Italy, Ireland, Germany, France, Finland, Denmark, Austria

## Fund Information

ISIN	IE00BKWQK51
Index Name	MSCI Europe Information Technology 35/20 Capped Index
Index Ticker	NE731547
Index Type	Net Total Return
Number of Constituents	17

## Key Facts

Inception Date	05-Dec-2014
Share Class Currency	EUR
Fund — Base Currency	EUR
TER	0.18%
Income Treatment	Accumulation
Replication Method	Replicated
UCITS Compliant	Yes
Domicile	Ireland
Investment Manager	State Street Global Advisors Europe Limited
Sub-Investment Manager(s)	State Street Global Advisors Limited
Fund Umbrella	SSGA SPDR ETFs Europe II plc
Share Class Assets (millions)	€115.91
Total Fund Assets (millions)	€115.91
ISA Eligible	Yes
SIPP Eligible	Yes
PEA Eligible	No

Index Change: "Index" reflects linked performance returns of both the MSCI Europe Information Technology 35/20 Capped Index and the MSCI Europe Information Technology Index. The index returns are reflective of the MSCI Europe Information Technology Index from fund inception until November 30, 2020 and of MSCI Europe Information Technology 35/20 Capped Index effective November 30, 2020 to present.

Past performance is not an indicator of future performance. The Gross of fees do not reflect and net of fees do reflect commissions and costs incurred on the issue and redemption, or purchases and sale, of units. If the performance is calculated on the basis of Gross/net asset values that are not denominated in the accounting currency of the collective investment scheme, its value may rise or fall as a result of currency fluctuations.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period. Calendar year inception performance returns will be partial for the year where the inception date for either the Fund in question or the historic performance-linked Fund (whichever is the earliest) falls within that period.

#### Characteristics

Number of Holdings	17
*Distribution Yield	-
Price/Earnings Ratio FY1	20.23
Average Price/Book	4.01
Average Market Cap (M)	€112,228.68
Index Dividend Yield	1.43%

\* This measures the 12 month historical dividend pay-out per share divided by the NAV.

**Capital Risk: Investing involves risk including the risk of loss of capital.**  
**Past performance is not a reliable indicator of future performance.**

## ssga.com/etfs

### Glossary

**Price/Earnings Ratio FY1** The average of the price of each underlying security divided by the mean EPS estimate of the security for the next unreported fiscal year, as of the report date.

**Average Price/Book** The average of the price of each underlying security divided by the Book value per share of the security, as of the report date.

**Index Dividend Yield** The average of the Annual dividends per share (DPS) of each underlying security in the index as of the report date divided by the price of the security as of the report date.

**TER** Total Expense Ratio is a fee charged to the fund, as a percentage of the Net Asset Value, to cover costs associated with operation and management of the portfolio of assets.

### For Professional Clients / Qualified Investors Use Only. Not for public distribution.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and ETF expenses will reduce returns.

### Marketing Communication

SPDR ETFs may not be available or suitable for you. The information provided does not constitute investment advice as such term is defined under the Markets in Financial Instruments Directive (2014/65/EU) and it should not be relied on as such. It should not be considered a solicitation to buy or an offer to sell any investment. It does not take into account any investor's or potential investor's particular investment objectives, strategies, tax

status, risk appetite or investment horizon. If you require investment advice you should consult your tax and financial or other professional advisor.

This document does not constitute an offer or request to purchase shares in SPDR ETFs Europe I plc and SPDR ETFs Europe II plc.

**Please refer to the Fund's latest Key Information Document (KID)/Key Investor Information Document (KIID) and Prospectus before making any final investment decision. The latest English version of the prospectus and the KID/KIID can be found at [www.ssga.com](http://www.ssga.com). ## R-Factor™ Summary

R-Factor™ is built off a transparent scoring methodology that leverages the Sustainability Accounting Standards Board (SASB) Materiality Map, corporate governance codes, and inputs from four best-in-class ESG data providers. R-Factor supports the development of sustainable capital markets by giving investors the ability to invest in solutions that integrate financially material ESG data while incentivizing companies to improve their ESG practices and disclosure in areas that matter.

Data included in the ESG sections of this Fact Sheet are the latest available and has a one-month lag against the reporting date.

## Climate Metrics

TCFD Carbon Metrics	Fund
TCFD Weighted Average Carbon Intensity (WACI)	18.55
TCFD Total Carbon Emissions**	515.90*
TCFD Carbon Footprint	4.22
TCFD Carbon Intensity	20.85

Source: State Street Global Advisors, S&P Trucost, FactSet, Task Force on Climate-related Financial Disclosures (TCFD). The results are estimates based on assumptions and analysis made by State Street Global Advisors. They are not intended to represent actual results of any offering. Actual results may differ. \* The TCFD Total Carbon Emission metric allocates emissions to investors based on an equity ownership approach. In the case of commingled funds, the results represent the environmental responsibility of the entire fund's assets under management. For individual unitholder's responsibility, an apportioned responsibility can be calculated based on the individual holding percentage. \*\* The metric is not used to compare portfolios and benchmarks because the data is not normalised.

Against Management	0.00%

Figures are based on State Street Global Advisors' general approach to voting at the companies held by the Fund at quarter end. This information is not a substitute for a proxy voting report, which can be requested through your relationship manager.

State Street Global Advisors' (SSGA) asset stewardship program is aimed at engaging with our fund companies on issues that impact long-term value creation across environmental, social and governance (ESG) considerations. In the recent past, SSGA has issued extensive guidance on key governance matters such as effective, independent board leadership. SSGA's current focus is on helping boards think about the possible impacts of environmental and social issues and incorporating a sustainability lens into boards' oversight of long-term strategy as a sound business practice.

## ssga.com/etfs

**R-Factor™** R-Factor™ is an ESG scoring system that leverages commonly accepted transparent materiality frameworks that are supported by a large group of companies and investors to generate a unique ESG score for listed companies. The score is powered by ESG data from four different providers (Sustainalytics, ISS-Oekom, Vigeo-EIRIS, and ISS-Governance), in order to improve overall coverage and remove biases inherent in existing scoring methodologies. R-Factor™ is designed to put companies in the driver's seat to help create sustainable markets.

**R-Factor™ Scores** are comparable across industries. The ESG and Corporate Governance (CorpGov) scores are designed to be based on issues that are material to a company's industry and regulatory region. A uniform grading scale allows for interpretation of the final company level score to allow for comparison across companies.

**The R-Factor™** scoring process comprises two underlying components. The first component is based on the framework published by the Sustainability Accounting Standards Board ("SASB"), which is used for all ESG aspects of the score other than those relating to corporate governance issues. The SASB framework attempts to identify ESG risks that are financially material to the issuer-based on its industry classification. This component of the R-Factor™ score is determined using only those metrics from the ESG data providers that specifically address ESG risks identified by the SASB framework as being financially material to the issuer-based on its industry classification. The second component of the score, the CorpGov score, is generated using region-specific corporate governance codes developed by investors or regulators. The governance codes describe minimum corporate governance expectations of a particular region and typically address topics such as shareholder rights, board independence and executive compensation. This component of the R-Factor™ uses data provided by ISS Governance to assign a governance score to issuers according to these governance codes.

**R-Factor™ Profile** Within each industry group, issuers are classified into five distinct ESG performance groups based on which percentile their R-Factor™ scores fall into. A company is classified in one of the five ESG performance classes (Laggard - 10% of universe, Underperformer - 20% of universe, Average Performer - 40% of universe, Outperformer - 20% of universe or Leader - 10% of universe) by comparing the company's R-Factor™ score against a band. R-Factor™ scores are normally distributed using normalized ratings on a 0-100 rating scale.

For examples of public language regarding R-Factor see the ELR Registration Statement here: <https://www.sec.gov/Archives/edgar/data/1107414/000119312519192334/d774617d497.htm>

**Carbon Intensity (Direct+Indirect)** Measured in Metric tons CO2e/USD millions revenues. The aggregation of operational and first-tier supply chain carbon footprints of index constituents per USD (equal weighted).

**Weighted Average Carbon Intensity (Direct+Indirect)** Measured in Metric tons CO2e/USD millions revenues. The weighted average of individual company intensities (operational and first-tier supply chain emissions over revenues), weighted by the proportion of each constituent in the index.

**Scope 1+2 Carbon Emissions** Measured in Metric tons of CO2e. The GHG emissions from operations that are owned or controlled by the company, as well as GHG emissions from consumption of purchased electricity, heat or steam, by the company.

**Total Reserves CO2 Emissions** Measured in Metric tons of CO2. The carbon footprint that could be generated if the proven and probable fossil fuel reserves owned by index constituents were burned per USD million invested. Unlike carbon intensity and carbon emissions, the S&P Trucost Total Reserves Emissions metric is a very specific indicator that is only applicable to a very selected number of companies in extractive and carbon-intensive industries. Those companies are assigned Total Reserves Emissions numerical results by Trucost, whereas the rest of the holdings in other

industries do not have numerical scores and are instead displaying "null", blank values. In order to present a more comprehensive overview of a portfolio's overall weighted average fossil fuel reserves, State Street Global Advisors replaces blank results with "zeros". While that might slightly underestimate the final weighted average volume, it provides a more realistic result, given that most companies in global indices have no ownership of fossil fuel reserves.

**TCFD Weighted Average Carbon Intensity** - Portfolio's exposure to carbon-intensive companies, expressed in tons CO2e / \$M revenue. Scope 1 and Scope 2 GHG emissions are allocated based on portfolio weights (the current value of the investment relative to the current portfolio value).

**TCFD Total Carbon Emissions** - The absolute greenhouse gas emissions associated with a portfolio, expressed in tons CO2e. Scope 1 and Scope 2 GHG emissions are allocated to investors based on an equity ownership approach.

**TCFD Carbon Footprint** - Total carbon emissions for a portfolio normalized by the market value of the portfolio, expressed in tons CO2e / \$M invested. Scope 1 and Scope 2 GHG emissions are allocated to investors based on an equity ownership approach.

**TCFD Carbon Intensity** - Volume of carbon emissions per million dollars of revenue (carbon efficiency of a portfolio), expressed in tons CO2e / \$M revenue. Scope 1 and Scope 2 GHG emissions are allocated to investors based on an equity ownership approach.

**Gender Diversity** We are currently using FactSet's own "People" dataset to disclose the number of women on the board, for each company in the Fund's portfolio. Data and metrics have been sourced as follows from the following contributors as of the date of this report, and are subject to their disclosures below. All other data has been sourced by SSGA.

**Trucost Sections** Carbon Intensity (Direct+Indirect), Weighted Average Carbon Intensity (Direct+Indirect), Scope 1+2 Carbon Emissions, Total Reserves CO2 Emissions Trucost™ is a registered trademark of S&P Trucost Limited ("Trucost") and is used under
