Key Features

• The SPDR® MSCI USA Gender Diversity ETF seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the MSCI USA Gender Diversity Select (the “Index”)
• Seeks to provide exposure to US companies that lead their sector in demonstrating a commitment towards promoting and supporting gender diversity throughout all levels of the organization
• Companies are also evaluated on promoting advancement through their diversity policies and programs
• Companies are weighted according to their market capitalization and Gender Diversity Score, a measure of a company’s women representation and diversity management

About This Benchmark

The MSCI USA Gender Diversity Select Index (the 'Index') is designed to represent the performance of those companies that exhibit a commitment towards promoting and maintaining a high level of gender diversity across the different levels within their organization, including their corporate board, executive and senior management, and workforce.

Past performance is not a reliable indicator of future performance. Investment return and principal value will fluctuate, so you may have a gain or loss when shares are sold. Current performance may be higher or lower than that quoted. All results are historical and assume the reinvestment of dividends and capital gains. Visit ssga.com for most recent month-end performance. Performance is shown net of fees. Performance of an index is not illustrative of any particular investment. It is not possible to invest directly in an index. Index returns are unmanaged and do not reflect the deduction of any fees or expenses. Index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income as applicable.

Index Change: “Benchmark” reflects linked performance returns of both the MSCI USA Gender Diversity Select Index and the SSGA Gender Diversity Index. The index returns are reflective of the SSGA Gender Diversity Index from fund inception until 12/08/2022 and of the MSCI USA Gender Diversity Select Index effective 12/08/2022 to present.

Prior to 12/08/2022, the SPDR® MSCI USA Gender Diversity ETF was known as the SPDR® SSGA Gender Diversity Index ETF. Prior to 12/08/2022, the fund was following the SSGA Gender Diversity Index.

Glossary

NAV The market value of a mutual fund’s or ETF’s total assets, minus liabilities, divided by the number of shares outstanding.

Market Value Determined by the midpoint between the bid/offer prices as of the closing time of the New York Stock Exchange (typically 4:00PM EST) on business days.

Gross Expense Ratio The fund’s total annual operating expense ratio. It is gross of any fee waivers or expense reimbursements. It can be found in the fund’s most recent prospectus.

30 Day SEC Yield (Also known as Standardized Yield) An annualized yield that is calculated by dividing the net investment income earned by the fund for the most recent 30-day period by the current maximum offering price.

Est. 3-5 Year EPS Growth Based on the underlying holdings of the fund. The actual earnings estimates for the underlying holdings are provided by FactSet, First Call, IBES Consensus, and Reuters and are used to calculate a mean 3-5 year EPS growth rate estimate.

Index Dividend Yield The weighted average of the underlying’s indicated annual dividend divided by price, expressed as a percentage.

Price/Earnings Ratio FY1 The weighted harmonic average of current share price divided by the forecasted one year earnings per share for each security in the fund.

Price/Book Ratio The weighted harmonic average of closing market price divided by the most recent reported book value for each security in the fund’s portfolio as calculated for the last twelve months.

Important Risk Information

Weights are as of the date indicated, and should not be relied upon as current thereafter.

Involves risk including the risk of loss of principal.

The information provided does not constitute investment advice and it should not be relied on as such.

The whole or any part of this work may not be reproduced, copied or transmitted or any of its contents disclosed to third parties without SS&G’s express written consent.

The market value of a mutual fund’s or ETF’s total assets, minus liabilities, divided by the number of shares outstanding.

May Lose Value

Gender diversity risk
The returns on a portfolio of securities that excludes companies that are not gender diverse may trail the returns on a portfolio of securities that includes companies that are not gender diverse.

Concentrated investments
A particular sector or industry technology sector and electronic media companies) tend to be more volatile than the overall market and increases risk that events negatively affecting such sectors or industries could reduce returns, potentially causing the value of the fund’s shares to decrease.

Equity securities may fluctuate in value and can decline significantly in response to the activities of individual companies and general market and economic conditions.

The fund is classified as “diversified” under the Investment Company Act of 1940, as amended (the “1940 Act”), but the fund may be considered “non-diversified,” as defined under the 1940 Act, solely as a result of tracking the index (e.g., changes in weightings of one or more component securities). When the fund is non-diversified, it may invest a relatively high percentage of its assets in a limited number of issuers.

Passively managed funds invest by sampling the index, holding a range of securities that, in the aggregate, approximate the full index in terms of key risk factors and other characteristics. This may cause the fund to experience tracking errors relative to performance of the index.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs net asset value. Brokerage commissions and ETF expenses will reduce returns.
