**Past performance is not a guarantee of future results. Investing involves risk including the risk of loss of capital.**

Performance returns for periods of less than one year are not annualised. Returns are gross of fees (based on unit price) and net of irrecoverable withholding tax. The index returns are unmanaged and do not reflect the deduction of any fees or expenses. The index returns reflect all items of income, gain and loss and the reinvestment of dividends and other income. The performance includes the reinvestment of dividends and other corporate earnings and is calculated in GBP. The calculation method for value added returns may show rounding differences. When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period. Any spreads disclosed are indicative only and are subject to the discretion of the investment manager, based on market conditions at the time of transaction.
