

# State Street Global Equity Diversified Index Fund

State Street ICAV

Fact Sheet  
Equity

31 October 2025

## Fund Objective

The investment objective of the Fund is to track the performance of developed and emerging equity markets.

## Environmental, Social & Governance (ESG) Characteristics

The Fund promotes environmental and social characteristics but does not have as its objective sustainable investment. The Fund is categorized under Article 8 of Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("SFDR")

Main methodological limits: There may be potential inconsistencies, inaccuracy or lack of availability of the ESG data, particularly when issued by external data providers. Details about the limits are described in the Prospectus.

More information about the type of ESG characteristics, ESG strategy, investment process and type of approach in the Prospectus.

## Investment Objective

The Fund invests primarily in securities included in the Index. The Index is designed to exhibit lower greenhouse emission exposure than the MSCI ACWI (the "Parent Index"). The Index uses an optimisation process that aims to: reduce the weighted average greenhouse gas emissions intensity by 50% compared to the Parent Index by time of the November 2030 Index Review when compared to the Parent Index levels as computed in November 2019 Index Review, reduce the weighted average greenhouse gas emissions intensity by 10% compared to the Parent Index at the time of Index Review, and on an annualized basis, reducing the weighted average WTW Climate Transition Value-at-Risk (or 'CTVaR') (which is calculated by Willis Limited ("Willis") and is a measure of the

risk of a reduction in an asset's value due to the global transition to net-zero emissions of the Index to 75% of CTVaR of the Parent Index. The Parent Index measures the performance of large and mid capitalisation stocks across both developed and emerging market countries. The Index excludes companies involved in controversial weapons businesses, very severe ESG controversies (redflag), companies assessed as having misalignment with the United Nations Global Compact Principles, tobacco, thermal coal mining, thermal coal power and oil sands. The Fund will use a replication strategy to create a near mirror-image of the Index. In limited circumstances the Fund may purchase securities that are not included in the Index. The Fund may use financial derivative instruments (that is, financial contracts whose prices are dependent on one or more underlying assets) in order to manage the portfolio efficiently.

A summary of investor rights can be found here: <https://www.ssga.com/library-content/products/fund-docs/summary-of-investor-rights/ssga-investors-rights-summary-template-non-etf-Lux.pdf>. Note that the Management Company may decide to terminate the arrangements made for marketing and proceed with de-notification in compliance with Article 93a of Directive 2009/65/EC.

The information contained in this communication is not a research recommendation or 'investment research' and is classified as a 'Marketing Communication' in accordance with the Markets in Financial Instruments Directive (2014/65/EU). This means that this marketing communication (a) has not been prepared in accordance with legal requirements designed to promote the independence of investment research (b) is not subject to any prohibition on dealing ahead of the dissemination of investment research.

Equity securities may fluctuate in value and can decline significantly in response to the activities of individual companies and general market and

economic conditions.

The returns on a portfolio of securities which exclude companies that do not meet the portfolio's sustainable strategy criteria may trail the returns on a portfolio of securities which include such companies. A portfolio's sustainable strategy criteria may result in the portfolio investing in industry sectors or securities which underperform the market as a whole.
