Fund Objective

The objective of the Sub-Fund is to track the performance of the U.S. dollar-denominated emerging markets government bond universe.

Investment Strategy

The investment policy of the Sub-Fund is to track the performance of the J.P. Morgan EMBI Global Diversified ESG Screened HC Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible while seeking to minimise as far as possible the tracking difference between the Sub-Fund's performance and that of the Index. The Index measures the performance of publicly issued U.S. dollar-denominated fixed and floating-rate debt instruments issued by emerging market sovereign and quasi-sovereign entities. The Index applies ESG screening methodology to exclude issuers based on an assessment of their adherence to certain ESG criteria including but not limited to UNGC principles (international norms in relation to the environment, human rights & communities, labour rights & supply chains, customers and governance) and exposure to controversial weapons, tobacco, thermal coal and oil sands extraction. The Index limits country exposure as defined in the Index methodology and redistributes the excess market value Index-wide on a pro-rata basis.

Past performance is not a guarantee of future results.

Investing involves risk including the risk of loss of principal.

The performance figures contained herein are provided on a gross and net of fees basis. Gross of fees do not reflect the deduction of advisory or other fees which could reduce the return. Index returns reflect capital gains and losses, income, and the reinvestment of dividends. The performance includes the reinvestment of dividends and other corporate earnings and is calculated in the currency stated in the Fund Facts. Past performance indicated herein has been calculated using technical net asset values as well as the official NAV of the Fund. Technical net asset values are calculated using the valuation of the benchmark when the Fund is closed according to its NAV calendar but the value of the benchmark can be ascertained. The calculation method for value added returns may show rounding differences.
