

Share Class

[I EUR Portfolio Hedged] Institutional Investors

Fund Objective

The objective of the Fund is to track the performance of the global bond market.

Investment Strategy

The investment policy of the Fund is to track the performance of the Bloomberg Global Aggregate Bond Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible while seeking to minimize as far as possible the tracking difference between the Fund's performance and that of the Index.

The Index measures the performance of the global bond market. The Index includes government, government-related and corporate bonds, as well as asset-backed, mortgage-backed and commercial mortgage-backed securities from both developed and emerging markets issuers. Securities must be fixed rate and rated investment grade as defined by the Index methodology.

In relation to corporate bonds, the Investment Manager employs a negative and norms-based ESG screen prior to the construction of the portfolio of the Fund and on an ongoing basis.

Past performance is not a reliable indicator of future performance.**Investing involves risk including the risk of loss of capital.**

The performance figures contained herein are provided on a gross and net of fees basis. Gross of fees do not reflect the deduction of advisory or other fees which could reduce the return. Index returns reflect capital gains and losses, income, and the reinvestment of dividends. The performance includes the reinvestment of dividends and other corporate earnings and is calculated in the currency stated in the Fund Facts.

Calendar year inception performance returns will be partial for the year where the inception date for either the Fund in question or the historic performance-linked Fund (whichever is the earliest) falls within that period.

The calculation method for value added returns may show rounding differences.

When the Fund is closed according to its official Net Asset Value (NAV) calendar but, nonetheless, a significant portion of the underlying security prices can be determined, a Technical NAV is calculated. Past Performance indicated herein has therefore been calculated using a Technical NAV when required, as well as the official NAV of the Fund as at each other business day for the relevant period.

Previous to 1 December 2021, this Fund's Benchmark was the Bloomberg Barclays Global Aggregate Bond Index.

If your account holds Russian securities and instruments, then as of the date of this publication, they have been fair valued. Such fair value may be zero. If your portfolio holds such Russian securities and instruments, then the portfolio may not be able to dispose of such securities and instruments depending on the relevant market, applicable sanctions requirements, and/or Russian capital controls or other counter measures. In such circumstances, the portfolio would continue to own and have exposure to Russian-related issuers and markets. Please refer to your portfolio holdings report.
