SSGA, ASL is the issuer of interests and the Responsible Entity for the ETFs which are Australian registered managed investment schemes quoted on the AQUA market of the ASX or listed on the ASX.

This material is general information only and does not take into account your individual objectives, financial situation or needs and you should consider whether it is appropriate for you. You should seek professional advice and consider the product disclosure document and target market determination, available at www.ssga.com/au, before deciding whether to acquire or continue to hold units in an ETF. This material should not be considered a solicitation to buy or sell a security.

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETF's net asset value. ETFs typically invest by sampling an index, holding a range of securities that, in the aggregate, approximates the full index in terms of key risk factors and other characteristics. This may cause the fund to experience tracking errors relative to performance of the index.

Investing involves risk including the risk of loss of principal. Diversification does not ensure a profit or guarantee against loss.
