
SPDR S&P 500 ESG Screened UCITS ETF

SFDR Article 8 – Additional Information

**Description of
environmental or
social characteristics**

The SPDR S&P 500 ESG Screened UCITS ETF is an index fund tracking the performance of the S&P 500 ESG Exclusions II Index.

The index measures the performance of the top 500 companies in the U.S. equity market which are weighted by market capitalisation, while aiming to screen out certain securities based on their exposure to controversial weapons, civilian firearms, tobacco, thermal coal and companies deemed not compliant with United Nations Global Compact principles.

Further Information

For information on the methodologies used in the construction of the Index and further information on the exclusion criteria and data sources, please refer to S&P's index methodology description which can be found at the following link:
