## Investment Objective and Policy

**Investment Objective:** The investment objective of the Fund is to track the U.S. equity market performance of large cap equity securities.

**Investment Policy:** The investment policy of the Fund is to track the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

The Index measures the performance of U.S. companies exhibiting higher quality characteristics relative to the overall companies in the S&P 500 Index (the "**Parent Index**"). In order to be considered to exhibit higher quality characteristics, securities in the Parent Index must first satisfy the multiple consecutive years of positive free cash flow ("**FCF**") criteria. Then, for the remaining securities, the top 100 securities with the highest "Quality Score" (based on 5-year average FCF margin and 5-year average FCF return on invested capital, as described below)) are selected as Index constituents.

The first step in calculating the "Quality Score" is to calculate, as of the Index rebalancing reference date, the two fundamental ratios below for each security in the Index universe. They are defined as follows:

- $\text{FCF Margin} = \text{FCF} / \text{Revenue}$
- $\text{Return on invested capital ("FCF ROIC")} = \text{FCF} / (\text{Total Debt} + \text{Total Equity})$

Where:

- $\text{FCF} = \text{Net Cash Flow from Operating Activities} - \text{Capital Expenditures}$ .

The second step is to calculate the five-year average for both FCF Margin and FCF ROIC. Where there is a missing value, the five-year average is calculated by taking a simple average of the remaining values.

Index constituents are weighted based on the product of floated-adjust market capitalisation and Quality Score. Index constituents may on occasion be rebalanced more often than the Index Rebalance Frequency, if required by the Index methodology, including for example where corporate actions such as mergers or acquisitions affect components of the Index. Please refer to the Index methodology for more details of Quality Score.

The Investment Manager and/or Sub-Investment Manager, on behalf of the Fund, will invest using the replication strategy as further described in the "**Investment Objectives and Policies – Index Tracking Funds**" section of the Prospectus, primarily in the securities of the Index, at all times in accordance with the Investment Restrictions set

forth in the Prospectus. The Investment Manager and/or Sub-Investment Manager also may, in exceptional circumstances, invest in securities not included in the Index but that it believes closely reflect the risk and distribution characteristics of securities of the Index. The equity securities in which the Fund invests will be primarily listed or traded on Recognised Markets in accordance with the limits set out in the UCITS Regulations. Details of the Fund's portfolio and the indicative net asset value per Share for the Fund are available on the Website daily.

## Permitted Investments

**Equities:** The securities in which the Fund invests may include equities, or equity-related securities such as American Depositary Receipts (ADRs) or Global Depositary Receipts (GDRs). ADRs and GDRs are typically used instead of local shares, where owning the local shares represented in the Index is not possible or prohibitively expensive.

**Other Funds / Liquid Assets:** The Fund may invest up to 10% of its net assets in other regulated open-ended funds (including Money Market Funds) where the objectives of such funds are consistent with the objective of the Fund and where such funds are authorised in member states of the EEA, United Kingdom, USA, Jersey, Guernsey or the Isle of Man and where such funds comply in all material respects with the provisions of the UCITS Regulations. The Fund may hold ancillary liquid assets such as deposits in accordance with the UCITS Regulations.

**Derivatives:** The Fund may, for efficient portfolio management purposes only, use financial derivative instruments ("FDIs"). Any use of FDIs by the Fund shall be limited to futures and forward foreign exchange contracts (including non-deliverable forwards). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk; the reduction of cost; the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund; or the minimisation of tracking error, i.e. the risk that the Fund return varies from the Index return. FDIs are described in the "**Investment Objectives and Policies – Use of Financial Derivative Instruments**" section of the Prospectus.

## Securities Lending, Repurchase Agreements & Reverse Repurchase Agreements

Investors should note that the Company may engage in securities lending on behalf of the Fund where the Investment Manager and/or Sub-Investment Manager believes it is appropriate to do so and in accordance with the "Investment Objectives and Policies - Use of Repurchase/Reverse Repurchase Agreements/Securities Lending Agreements" section of the Prospectus. Investors

should read the risk warning headed “Securities Lending Risk” in the “Risk Information” section of the Prospectus in this regard. The Fund’s maximum exposure to securities lending as a percentage of its Net Asset Value will not exceed 40%. Lending levels will be influenced by market factors and, subject to the maximum referenced above, cannot be predicted with any certainty. Past lending figures are not a reliable indicator of future levels. The Fund does not intend to engage in repurchase agreements or reverse repurchase agreements.

The Company has appointed State Street Bank and Trust Company, a bank incorporated under the laws of Massachusetts whose registered office is at One Congress Street, Boston, Massachusetts, 02114-2016, U.S.A., and acting for the purposes of the securities lending agreement through its London branch (Branch Registration No. in England BR002088) at 20 Churchill Place, London E14 5HJ, England as a securities lending agent to the Company pursuant to a securities lending agreement between the Company, State Street Bank and Trust Company and the Depositary dated 27 October 2023 (a “Securities Lending Agreement”). This Securities Lending Agreement appoints State Street Bank and Trust Company acting through its London Branch to manage the Fund’s securities lending activities and provides for State Street Bank and Trust Company acting through its London Branch to receive a fee at normal commercial rates to cover all fees and costs associated with the provision of this service. Any income earned from securities lending, net of direct and indirect operational costs (including the fee paid to State Street Bank and Trust Company acting through its London Branch), will be returned to the Fund. Full financial details of any revenue earned and direct and indirect operational costs and fees incurred with respect to securities lending for the Fund, including fees paid or payable to State Street Bank and Trust Company acting through its London Branch, will be included in the annual financial statements.

**Please note that should the Directors elect to change the Company’s securities lending policy in the future, due notification will be given to Shareholders and this Supplement will be updated accordingly.**

## Investment Risks

Investment in the Fund carries with it a degree of risk. Investors should read the “**Risk Information**” section of the Prospectus. In addition, the following risks are particularly relevant for the Fund.

**Index Tracking Risk:** The Fund’s return may not match the return of the Index. It is currently anticipated that the Fund will track the Index with a potential variation of up to 2% annually under normal market conditions. The Fund’s ability to track the Index will be affected by Fund expenses, the amount of cash and cash equivalents held in its portfolio, and the frequency and the timing of purchases and sales of interests in the Fund. The Investment Manager and/or Sub-Investment Manager may attempt to replicate the Index

return by investing in a sub-set of the securities in the Index, or in some securities not included in the Index, potentially increasing the risk of divergence between the Fund’s return and that of the Index.

**Liquidity Risk & ETF Liquidity Risk:** Lack of a ready market or restrictions on resale may limit the ability of the Fund to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. Illiquidity of the Fund’s holdings may limit the ability of the Fund to obtain cash to meet redemptions on a timely basis. Where the fund invests in illiquid securities or does not trade in large volumes, the bid offer spreads of the Fund may widen, the Fund may be exposed to increased valuation risk and reduced ability to trade. Shares in the Fund may also trade at prices that are materially different to the last available NAV.

**Concentration Risk:** When the Fund focuses its investments in a small number of stocks, the financial, economic, business, and other developments affecting issuers in that small number of stocks will have a greater effect on the Fund than if it was more diversified. This concentration may also limit the liquidity of the Fund. Investors may buy or sell substantial amounts of the Fund’s shares in response to factors affecting or expected to affect a small number of stocks in which the Fund focuses its investments.

**Derivatives Risk:** The Fund may use FDIs for efficient portfolio management purposes as described in the derivatives section under Permitted Investments above. The Fund’s use of FDIs involves risks different from, and possibly greater than, the risks associated with investing directly in securities.

**Integrating Sustainability Risk:** Sustainability Risk has not been integrated into the Fund’s investment process. Any deterioration in the financial profile of an underlying investment affected by a Sustainability Risk may have a corresponding negative impact on the Net Asset Value and/or performance of the investing Fund. Where a Sustainability Risk event occurs, this Fund may be more impacted than an equivalent Fund that integrates Sustainability Risk. Shareholders should refer to the “**Index Strategies and Sustainability Integration**” section of the Prospectus for further information.

## Investor Profile

The typical investors of the Fund are expected to be institutional, intermediary and retail investors who want to take medium or long term exposure to the large cap equity market performance of the U.S. and are prepared to accept the risks associated with an investment of this type, including the expected high volatility of the Fund.

## Subscriptions, Redemptions & Conversions

Investors may subscribe for or redeem Shares in the Fund on each Dealing Day at the Dealing NAV with an appropriate provision for Duties and Charges and in accordance with the provisions in the **“Purchase and Sale Information”** section of the Prospectus.

For subscriptions, consideration, in the form of cash or cleared in kind securities, must be received by the Settlement Deadline. For redemptions, a written redemption request signed by the Shareholder is required to be received by the Administrator by the Dealing Deadline on the relevant Dealing Day.

Shareholders should refer to the terms of the **“Purchase and Sale Information”** section of the Prospectus for information on Share conversions.

## Initial Offer Period

Shares in the following Share Classes of the Fund will be issued at the Dealing NAV:

SPDR S&P 500 Quality Aristocrats UCITS ETF (Acc)

Shares of the Fund which are not launched as at the date of this Supplement will be available from 9.00 a.m. (Irish time) on 2 April 2025 to 3.00 p.m. (Irish time) on 1 October 2025 or such earlier or later date as the Directors may determine and notify to the Central Bank (the “Initial Offer Period”). The initial offer price will be approximately 20 in the currency of the respective share class, plus an appropriate provision for Duties and Charges, or such other amount as determined by the Investment Manager and/or Sub-Investment Manager and communicated to investors prior to investment. Following the closing date of the Initial Offer Period, the Shares will be issued at the Dealing NAV.
