

## FOR INVESTORS IN THE NETHERLANDS, SWEDEN, SWITZERLAND OR THE UNITED KINGDOM

SPDRs ETFs are registered with the United States Securities and Exchange Commission under the SPDR S&P 500 ETF Trust, SPDR Dow Jones Industrial Average ETF Trust, The Select Sector SPDR Trust, SPDR Index Shares Funds or SPDR Series Trust (the "U.S. SPDR ETFs") and are distributed in the United States by either ALPS Distributors, Inc., ALPS Portfolio Solutions Distributor, Inc. ("ALPS"), or State Street Global Advisors Funds Distributors, LLC. Neither ALPS nor State Street Global Advisors Funds Distributors, LLC makes any representation as to the validity, suitability or legality of any offer to sell or solicitation of any offer to buy U.S. SPDR ETFs in a jurisdiction outside the United States. This document is provided by State Street Global Advisors Trust Company or SSGA Funds Management Inc. as applicable ("State Street Global Advisors") to permitted institutional investors. Any distribution, by whatever means, of this material and related material to persons other than such institutional investors is strictly prohibited.

This document is not an advertisement and does not constitute an offer to sell or a solicitation of an offer to buy shares of any U.S. SPDR ETFs mentioned in this document nor shall any such shares be offered or sold to any person in any jurisdiction in which an offer, solicitation, purchase or sale would be unlawful under the securities laws of such jurisdiction.

### NOTICE TO PERSONS IN THE EUROPEAN ECONOMIC AREA ("EEA")

The U.S. SPDR ETFs referenced within this document are not registered for public distribution and are considered alternative investment funds for the purpose of the European Union Alternative Investment Fund Managers Directive (Directive 2011/61/EU) ("AIFMD"). Interests in the U.S. SPDR ETFs may only be marketed to prospective investors which are domiciled or have a registered office in a member state of the EEA ("EEA Persons") in which marketing has been authorized under the relevant national implementation of Article 42 of AIFMD and in such cases only to EEA Persons which are Professional Investors or any other category of person to which such marketing is permitted under the national laws of such member state.

A "Professional Investor" is an investor who is considered to be a professional client or which may, on request, be treated as a professional client within the relevant national implementation of Annex II of Directive 2004/39/EC (Markets in Financial Instruments Directive) and AIFMD.

In the Netherlands, a "Qualified Investor" is an investor who is considered to be a qualified investor (gekwalficeerde belegger) within the meaning of article 1:1 of the Dutch Act on financial supervision (Wet op het financieel toezicht)."

### DISTRIBUTION TO QUALIFIED INVESTORS IN SWITZERLAND

The distribution of interests of U.S. SPDR ETFs in Switzerland will be exclusively made to, and directed at, qualified investors (the "Qualified Investors"), as defined in the Swiss Collective Investment Schemes Act of 23 June 2006, as amended ("CISA") and its implementing ordinance. Accordingly, U.S. SPDR ETFs are not registered with the Swiss Financial Market Supervisory Authority ("FINMA"). The legal documents of the U.S. SPDR ETFs can be obtained free of charge from the representative in Switzerland. Offering material relating to interests of the US SPDR ETFs may be made available in Switzerland solely by the Swiss representative and/or authorized distributors to Qualified Investors.

# SPDR® S&P 500® Fossil Fuel Reserves Free ETF

**SPYX**  
(NYSE Ticker)

## Summary Prospectus-October 31, 2020

Before you invest in the SPDR® S&P 500® Fossil Fuel Reserves Free ETF (the “Fund”), you may want to review the Fund’s prospectus and statement of additional information, which contain more information about the Fund and the risks of investing in the Fund. The Fund’s prospectus and statement of additional information dated October 31, 2020, are incorporated by reference into this summary prospectus. You can find the Fund’s prospectus, statement of additional information and reports to shareholders, as well as other information about the Fund, online at <https://www.ssga.com/spdrs>.

You may also obtain this information at no charge by calling 1-866-787-2257 or by sending an e-mail request to [Fund\\_inquiry@ssga.com](mailto:Fund_inquiry@ssga.com).

Beginning on January 1, 2021, as permitted by regulations adopted by the U.S. Securities and Exchange Commission, paper copies of the Fund’s annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Fund (or from your financial intermediary, such as a broker-dealer or bank). Instead, the reports will be made available on the Fund’s website (<https://www.ssga.com/spdrs>), and you will be notified by mail each time a report is posted, and provided with a website link to access the report. If you already elected to receive reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications by contacting your financial intermediary.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports. Your election to receive reports in paper will apply to all funds held in your account.

### Investment Objective

The SPDR S&P 500 Fossil Fuel Reserves Free ETF (the “Fund”) seeks to provide investment results that, before fees and expenses, correspond generally to the total return performance of the S&P 500 Fossil Fuel Free Index.

### Fees and Expenses of the Fund

The table below describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund (“Fund Shares”). You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and Example below.

**Annual Fund Operating Expenses** (expenses that you pay each year as a percentage of the value of your investment):

Management fees	0.25%
Distribution and service (12b-1) fees	None
Other expenses	0.00%
Total annual Fund operating expenses	0.25%
Less contractual fee waiver <sup>1</sup>	(0.05)%
Net annual Fund operating expenses	0.20%

<sup>1</sup> SSGA Funds Management, Inc. (“SSGA FM” or “Adviser”) has contractually agreed to waive a portion of its management fee and/or reimburse certain expenses, until October 31, 2021, so that the net annual Fund operating expenses, before application of any fees and expenses not paid by the Adviser pursuant to the Investment Advisory Agreement, if any, are limited to 0.20% of the Fund’s average daily net assets. The contractual fee waiver and/or reimbursement does not provide for the recoupment by the Adviser of any fees the Adviser previously waived. The Adviser may continue the waiver and/or reimbursement from year to year, but there is no guarantee that the Adviser will do so and the waiver and/or reimbursement may be cancelled or modified at any time after October 31, 2021. This waiver and/or reimbursement may not be terminated prior to October 31, 2021 except with the approval of the Fund’s Board of Trustees.

### Example:

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated, and then sell all of your Fund Shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. The Example reflects the Fund’s contractual fee waiver and/or expense reimbursement only in the periods for which the contractual fee waiver and/or expense reimbursement is expected to continue. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

## SPDR® S&P 500® Fossil Fuel Reserves Free ETF

Year 1	Year 3	Year 5	Year 10
\$20	\$75	\$136	\$313

### Portfolio Turnover:

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund Shares are held in a taxable account. These costs, which are not reflected in Annual Fund Operating Expenses or in the Example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 4% of the average value of its portfolio.

### The Fund’s Principal Investment Strategy

In seeking to track the performance of the S&P 500 Fossil Fuel Free Index (the “Index”), the Fund employs a sampling strategy, which means that the Fund is not required to purchase all of the securities represented in the Index. Instead, the Fund may purchase a subset of the securities in the Index in an effort to hold a portfolio of securities with generally the same risk and return characteristics of the Index. The quantity of holdings in the Fund will be based on a number of factors, including asset size of the Fund. Based on its analysis of these factors, SSGA Funds Management, Inc. (“SSGA FM” or the “Adviser”), the investment adviser to the Fund, either may invest the Fund’s assets in a subset of securities in the Index or may invest the Fund’s assets in substantially all of the securities represented in the Index in approximately the same proportions as the Index, as determined by the Adviser to be in the best interest of the Fund in pursuing its objective. The Fund is classified as “diversified” under the Investment Company Act of 1940, as amended; however, the Fund may become “non-diversified” solely as a result of tracking the Index (e.g., changes in weightings of one or more component securities). When the Fund is non-diversified, it may invest a relatively high percentage of its assets in a limited number of issuers.

Under normal market conditions, the Fund generally invests substantially all, but at least 80%, of its total assets in the securities comprising the Index. In addition, in seeking to track the Index, the Fund may invest in equity securities that are not included in the Index (including common stock, preferred stock, depositary receipts and shares of other investment companies), cash and cash equivalents or money market instruments, such as repurchase agreements and money market funds (including money market funds advised by the Adviser). In seeking to track the Index, the Fund’s assets will generally be concentrated in an industry or group of industries to the extent that the Index concentrates in a particular industry or group of industries. Futures contracts (a type of derivative instrument) may be used by the Fund in seeking performance that corresponds to the Index and in managing cash flows.

The Index is designed to measure the performance of companies in the S&P 500 Index that are “fossil fuel free”, which are defined as companies that do not own fossil fuel reserves (either proven or probable). For purposes of the composition of the Index, fossil fuel reserves are defined as (i) thermal coal reserves, (ii) other non-metallurgical coal reserves (e.g., coal for chemical biproducts, coal briquettes, residential use, liquid fuel, cement production, paper manufacturing, pharmaceutical, alumina refineries, ferrochrome, anthracite) (iii) conventional or unconventional oil reserves (e.g., natural gas liquids, oil sands, condensates and liquid petroleum gas), (iv) natural gas reserves, (v) shale gas reserves, and (vi) oil and gas reserves that have not been disclosed transparently as specific types of oil or gas, or are disclosed as one aggregate quantity of oil and gas reserves combined. The Index is a subset of the S&P 500 Index (the “Underlying Index”), which serves as the initial universe of eligible securities for the Index. The Underlying Index focuses on the large capitalization U.S. equity market, including common stock and real estate investment trusts (“REITs”). The selection universe for the S&P 500 Index includes all U.S. common equities listed on the NYSE, NYSE Arca, NYSE American, NASDAQ Global Select Market, NASDAQ Select Market, NASDAQ Capital Market, Investors Exchange (IEX), Cboe BZX, Cboe BYX, Cboe EDGA, or Cboe EDGX with unadjusted market capitalizations of at least \$8.2 billion and float-adjusted market capitalizations of at least \$4.1 billion at the time of inclusion. The minimum required capitalization may be revised by the Index Provider (as defined below) at any time. In constructing the Index, the initial universe is screened in an effort to exclude companies with any ownership of fossil fuel reserves, including for third-party and in-house power generation, as determined by publicly available information, such as annual reports and other company publications.

The Index is weighted by float-adjusted market capitalization. The Index is rebalanced quarterly after the close of business on the third Friday of March, June, September, and December. The rebalancing reference dates are after the close of the third Friday of February, May, August, and November, respectively. New additions to the Underlying Index are reviewed for inclusion in the Index each quarter, provided they have been added to the Underlying Index by the Index rebalancing reference dates. Fossil fuel reserve ownership information is updated as part of each quarterly rebalancing. As of July 31, 2020, a significant portion of the Fund comprised companies in the technology sector, although this may change from time to time. As of July 31, 2020, the Index comprised 487 stocks.

The Index is sponsored by S&P Dow Jones Indices LLC (the “Index Provider”), which is not affiliated with the Fund or the Adviser. The Index Provider determines the composition of the Index, relative weightings of the securities in the Index and publishes information regarding the market value of the Index.

## Principal Risks of Investing in the Fund

As with all investments, there are certain risks of investing in the Fund. Fund Shares will change in value, and you could lose money by investing in the Fund. An investment in the Fund is not insured or guaranteed by the Federal Deposit Insurance Corporation or any other government agency.

**Market Risk:** The Fund's investments are subject to changes in general economic conditions, general market fluctuations and the risks inherent in investment in securities markets. Investment markets can be volatile and prices of investments can change substantially due to various factors including, but not limited to, economic growth or recession, changes in interest rates, changes in the actual or perceived creditworthiness of issuers, and general market liquidity. The Fund is subject to the risk that geopolitical events will disrupt securities markets and adversely affect global economies and markets. Local, regional or global events such as war, acts of terrorism, the spread of infectious illness or other public health issues, or other events could have a significant impact on the Fund and its investments.

**Equity Investing Risk:** The market prices of equity securities owned by the Fund may go up or down, sometimes rapidly or unpredictably. The value of a security may decline for a number of reasons that may directly relate to the issuer and also may decline due to general industry or market conditions that are not specifically related to a particular company. In addition, equity markets tend to move in cycles, which may cause stock prices to fall over short or extended periods of time.

**Fossil Fuel Reserves Free Ownership Risk:** The lack of ownership of fossil fuel reserves may potentially have an adverse effect on a company's profitability. The returns on a portfolio of securities that seeks to exclude companies that own fossil fuel reserves may trail the returns on a portfolio of securities that includes companies that own fossil fuel reserves. Investing in a portfolio of securities of companies that do not own fossil fuel reserves may affect the Fund's exposure to certain types of investments and may impact the Fund's relative investment performance depending on whether such investments are in or out of favor in the market.

**Large-Capitalization Securities Risk:** Returns on investments in securities of large companies could trail the returns on investments in securities of smaller and mid-sized companies. Larger companies may be unable to respond as quickly as smaller and mid-sized companies to competitive challenges or to changes in business, product, financial, or other market conditions. Larger companies may not be able to maintain growth at the high rates that may be achieved by well-managed smaller and mid-sized companies.

**Fluctuation of Net Asset Value, Share Premiums and Discounts Risk:** As with all exchange-traded funds, Fund Shares may be bought and sold in the secondary market at market prices. The trading prices of Fund Shares in the secondary market may differ from the Fund's daily net asset value per share and there may be times when the market price of the shares is more than the net asset value per share (premium) or less than the net asset value per share (discount). This risk is heightened in times of market volatility or periods of steep market declines.

**Counterparty Risk:** The Fund will be subject to credit risk with respect to the counterparties with which the Fund enters into derivatives contracts, repurchase agreements, reverse repurchase agreements, and other transactions. If a counterparty fails to meet its contractual obligations, the Fund may be unable to terminate or realize any gain on the investment or transaction, or to recover collateral posted to the counterparty, resulting in a loss to the Fund. If the Fund holds collateral posted by its counterparty, it may be delayed or prevented from realizing on the collateral in the event of a bankruptcy or insolvency proceeding relating to the counterparty.

**Derivatives Risk:** Derivative transactions can create investment leverage and may have significant volatility. It is possible that a derivative transaction will result in a much greater loss than the principal amount invested, and the Fund may not be able to close out a derivative transaction at a favorable time or price. The counterparty to a derivatives contract may be unable or unwilling to make timely settlement payments, return the Fund's margin, or otherwise honor its obligations. A derivatives transaction may not behave in the manner anticipated by the Adviser or may not have the effect on the Fund anticipated by the Adviser.

**Indexing Strategy/Index Tracking Risk:** The Fund is managed with an indexing investment strategy, attempting to track the performance of an unmanaged index of securities, regardless of the current or projected performance of the Index or of the actual securities comprising the Index. This differs from an actively-managed fund, which typically seeks to outperform a benchmark index. As a result, the Fund's performance may be less favorable than that of a portfolio managed using an active investment strategy. The structure and composition of the Index will affect the performance, volatility, and risk of the Index and, consequently, the performance, volatility, and risk of the Fund. When there are changes made to the component securities of the Index and the Fund in turn makes similar changes to its portfolio, any transaction costs and market exposure arising from such portfolio changes will be borne directly by the Fund and its shareholders. The Fund may recognize gains as a result of rebalancing or reconstituting its securities holdings to reflect changes in the securities included in the Index. The Fund also may be required to distribute any such gains to its shareholders to avoid adverse federal income tax consequences. While the Adviser seeks to track the performance of the Index (*i.e.*, achieve a high degree of correlation with the Index), the Fund's return may not match the return of the Index. The Fund incurs a number of operating expenses not applicable to the Index, and incurs costs in buying and selling securities. In

## SPDR® S&P 500® Fossil Fuel Reserves Free ETF

addition, the Fund may not be fully invested at times, generally as a result of cash flows into or out of the Fund or reserves of cash held by the Fund to meet redemptions. The Adviser may attempt to track the Index return by investing in fewer than all of the securities in the Index, or in some securities not included in the Index, potentially increasing the risk of divergence between the Fund's return and that of the Index.

**Liquidity Risk:** Lack of a ready market or restrictions on resale may limit the ability of the Fund to sell a security at an advantageous time or price or at all. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. Illiquidity of the Fund's holdings may limit the ability of the Fund to obtain cash to meet redemptions on a timely basis. In addition, the Fund, due to limitations on investments in any illiquid securities and/or the difficulty in purchasing and selling such investments, may be unable to achieve its desired level of exposure to a certain market or sector.

**Non-Diversification Risk:** To the extent the Fund becomes "non-diversified," the Fund may hold a smaller number of portfolio securities than many other funds. To the extent the Fund invests in a relatively small number of issuers, a decline in the market value of a particular security held by the Fund may affect its value more than if it invested in a larger number of issuers. The value of Fund Shares may be more volatile than the values of shares of more diversified funds. The Fund may become non-diversified for periods of time solely as a result of changes in the composition of the Index (e.g., changes in weightings of one or more component securities).

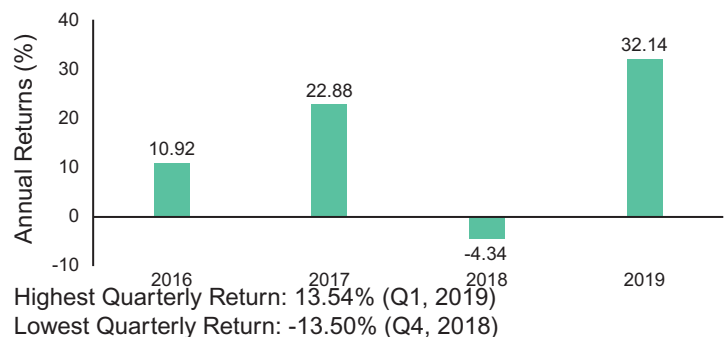

**Technology Sector Risk:** Market or economic factors impacting technology companies and companies that rely heavily on technological advances could have a major effect on the value of the Fund's investments. The value of stocks of technology companies and companies that rely heavily on technology is particularly vulnerable to rapid changes in technology product cycles, rapid product obsolescence, government regulation and competition, both domestically and internationally, including competition from foreign competitors with lower production costs. Stocks of technology companies and companies that rely heavily on technology, especially those of smaller, less-seasoned companies, tend to be more volatile than the overall market. Technology companies are heavily dependent on patent and intellectual property rights, the loss or impairment of which may adversely affect profitability. Additionally, companies in the technology sector may face dramatic and often unpredictable changes in growth rates and competition for the services of qualified personnel.

**Unconstrained Sector Risk:** The Fund may invest a substantial portion of its assets within one or more economic sectors or industries, which may change from time to time. Greater investment focus on one or more sectors or industries increases the potential for volatility and the risk that events negatively affecting such sectors or industries could reduce returns, potentially causing the value of the Fund's Shares to decrease, perhaps significantly.

### Fund Performance

The following bar chart and table provide an indication of the risks of investing in the Fund by showing changes in the Fund's performance from year to year and by showing how the Fund's average annual returns for certain time periods compare with the average annual returns of the Index and of a relevant broad-based securities index. The Fund's past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available by calling 1-866-787-2257 or visiting our website at <https://www.ssga.com/spdrs>.

Annual Total Returns (years ended 12/31)\*

\* As of 9/30/2020, the Fund's Calendar Year-To-Date return was 6.92%.

### Average Annual Total Returns (for periods ended 12/31/19)

The after-tax returns presented in the table below are calculated using highest historical individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Your actual after-tax returns will depend on your specific tax situation and may differ from those shown below. After-tax returns are not relevant to investors who hold Fund Shares through tax-advantaged arrangements, such as 401(k) plans or individual retirement accounts. The returns after taxes can exceed the returns before taxes due to an assumed tax benefit for a shareholder from realizing a capital loss on a sale of Fund Shares.

## SPDR® S&P 500® Fossil Fuel Reserves Free ETF

	One Year	Since Inception (11/30/2015)
Return Before Taxes	32.14%	13.87%
Return After Taxes on Distributions	31.62%	13.37%
Return After Taxes on Distributions and Sale of Fund Shares	19.35%	10.91%
S&P 500 Fossil Fuel Free Index (reflects no deduction for fees, expenses or taxes)	32.48%	14.13%
S&P 500 Index (reflects no deduction for fees, expenses or taxes)	31.49%	13.67%

### Portfolio Management

#### Investment Adviser

SSGA FM serves as the investment adviser to the Fund.

#### Portfolio Managers

The professionals primarily responsible for the day-to-day management of the Fund are Michael Feehily, Karl Schneider and John Law.

Michael Feehily, CFA, is a Senior Managing Director of the Adviser and the Head of Global Equity Beta Solutions in the Americas. He worked at the Adviser from 1997 to 2006 and rejoined in 2010.

Karl Schneider, CAIA, is a Managing Director of the Adviser and Deputy Head of Global Equity Beta Solutions in the Americas. He joined the Adviser in 1997.

John Law, CFA, is a Vice President of the Adviser and a Senior Portfolio Manager in the Global Equity Beta Solutions Group. He joined the Adviser in 2016.

### Purchase and Sale Information

The Fund will issue (or redeem) Fund Shares to certain institutional investors (typically market makers or other broker-dealers) only in large blocks of Fund Shares known as "Creation Units." Creation Unit transactions are conducted in exchange for the deposit or delivery of a designated portfolio of in-kind securities and/or cash.

Individual Fund Shares may only be purchased and sold on the NYSE Arca, Inc., other national securities exchanges, electronic crossing networks and other alternative trading systems through your broker-dealer at market prices. Because Fund Shares trade at market prices rather than at net asset value ("NAV"), Fund Shares may trade at a price greater than NAV (premium) or less than NAV (discount). When buying or selling Fund Shares in the secondary market, you may incur costs attributable to the difference between the highest price a buyer is willing to pay to purchase Fund Shares (bid) and the lowest price a seller is willing to accept for Fund Shares (ask) (the "bid-ask spread"). Recent information regarding the Fund's NAV, market price, premiums and discounts, and bid-ask spreads is available at <https://www.ssga.com/spdrs>.

### Tax Information

The Fund's distributions are expected to be taxed as ordinary income, qualified dividend income and/or capital gains, unless you are investing through a tax-advantaged arrangement, such as a 401(k) plan or individual retirement account. Any withdrawals made from such tax-advantaged arrangement may be taxable to you.

### Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase Fund Shares through a broker-dealer or other financial intermediary (such as a bank), the Adviser or its affiliates may pay the financial intermediary for certain activities related to the Fund, including educational training programs, conferences, the development of technology platforms and reporting systems, or other services related to the sale or promotion of the Fund. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
