#### Important Risk Information

**State Street Global Advisors and its affiliates have not taken into consideration the circumstances of any particular investor in producing this material and are not making an investment recommendation or acting in fiduciary capacity in connection with the provision of the information contained herein.**

ETFs trade like stocks, are subject to investment risk, fluctuate in market value and may trade at prices above or below the ETFs' net asset value. Brokerage commissions and ETF expenses will reduce returns. Frequent trading of ETFs could significantly increase commissions and other costs such that they may offset any savings from low fees or costs.

Diversification does not ensure a profit or guarantee against loss.

Investing involves risk, and you could lose money on an investment in each of SPDR® Gold Shares Trust ("GLD<sup>SM</sup>") and SPDR® Gold MiniShares<sup>SM</sup> Trust ("GLDM<sup>SM</sup>"), a series of the World Gold Trust (together, the "Funds").

**Investing in commodities entails significant risk and is not appropriate for all investors. Important Information Relating to SPDR® Gold Trust ("GLD<sup>SM</sup>") and SPDR® Gold MiniShares<sup>SM</sup> Trust ("GLDM<sup>SM</sup>"): The SPDR Gold Trust ("GLD") and the World Gold Trust have each filed a registration statement (including a prospectus) with the Securities and Exchange Commission ("SEC") for GLD and GLDM, respectively. Before you invest, you should read the prospectus in the registration statement and other documents each Fund has filed with the SEC for more complete information about each Fund and these offerings. Please see each Fund's prospectus for a more detailed discussion of the risks of investing in each Fund's shares. When distributed electronically, the GLD prospectus is available by clicking here and the GLDM prospectus is available by clicking here. None of the Funds is an investment company registered under the Investment Company Act of 1940 (the "1940 Act"). As a result, shareholders of each Fund do not have the protections associated with ownership of shares in an investment company registered under the 1940 Act. GLD and GLDM are not subject to regulation under the CEA. As a result, shareholders of GLD and GLDM do not have the protections afforded by the CEA. Shares of each Fund trade like stocks, are subject to investment risk and will fluctuate in market value. The values of GLD shares and GLDM shares relate directly to the value of the gold held by each Fund (less its expenses), respectively. Fluctuations in the price of gold could materially and adversely affect an investment in the shares. The price received upon the sale of the shares, which trade at market price, may be more or less than the value of the gold represented by them.

None of the Funds generate any income, and as each Fund regularly sells gold to pay for its ongoing expenses, the amount of gold represented by each Fund share will decline over time to that extent.
