Significant changes in the state of affairs

In the opinion of the directors, there were no significant changes in the state of affairs of the Funds/Trusts that occurred during the financial year.

Matters subsequent to the end of the financial year

No matter or circumstance has arisen since 30 June 2023 that has significantly affected, or may significantly affect:

- (i) the operations of the Funds/Trusts in future financial years, or
- (ii) the results of those operations in future financial years, or
- (iii) the state of affairs of the Funds/Trusts in future financial years.

Likely developments and expected results of operations

The Funds/Trusts will continue to be managed in accordance with the investment objectives and guidelines as set out in the governing documents of the Funds/Trusts and in accordance with the provisions of the Funds'/Trusts' Constitutions.

The results of the Funds'/Trusts' operations will be affected by a number of factors, including the performance of investment markets in which the Funds/Trusts invest. Investment performance is not guaranteed and future returns may differ from past returns. As investment conditions change over time, past returns should not be used to predict future returns.

Further information on likely developments in the operations of the Funds/Trusts and the expected results of those operations have not been included in this report because the Responsible Entity believes it would be likely to result in unreasonable prejudice to the Funds/Trusts.

Directors' report (continued)

Indemnity and insurance of officers

No insurance premiums are paid for out of the assets of the Funds/Trusts in regards to insurance cover provided to either the officers of State Street Global Advisors, Australia Services Limited or the auditor of the Funds/Trusts. So long as the officers of State Street Global Advisors, Australia Services Limited act in accordance with the Funds'/Trusts' Constitutions and the *Corporations Act 2001*, the officers remain indemnified out of the assets of the Funds/Trusts against losses incurred while acting on behalf of the Funds/Trusts.

Indemnity of auditor

The auditor of the Funds/Trusts is in no way indemnified out of the assets of the Funds/Trusts.

Fees paid to and interests held in the Funds/Trusts by the Responsible Entity or its associates

Fees paid to the Responsible Entity and its associates out of Funds'/Trusts' property during the year are disclosed in note 18 to the financial statements.

No fees were paid out of Funds'/Trusts' property to the directors of the Responsible Entity during the year.

The number of interests in the Funds/Trusts held by the Responsible Entity or its associates as at the end of the financial year are disclosed in note 18 to the financial statements.

Interests in the Funds/Trusts

The movements in units on issue in the Funds/Trusts during the year are disclosed in note 11 to the financial statements.

The value of the Funds'/Trusts' assets and liabilities is disclosed on the Statements of financial position and derived using the basis set out in note 2 to the financial statements.

Environmental regulation

The operations of the Funds/Trusts are not subject to any particular or significant environmental regulations under a Commonwealth, State or Territory law.

Rounding of amounts to the nearest dollar

The Funds/Trusts are entities of the kind referred to in ASIC Corporations (Rounding in Financial/Directors' Reports) Instrument 2016/191 issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the Directors' report. Amounts in the Directors' report have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

Auditor's independence declaration

A copy of the Auditor's independence declaration as required under section 307C of the *Corporations Act 2001* is set out on page 7.

This report is made in accordance with a resolution of the directors.

State Street Global Index Plus (Hedged) Trust invested funds in unlisted unit trusts, index derivatives and foreign currency contracts in accordance with the provisions of the Trust's Constitution.

The financial statements were authorised for issue by the directors on 27 September 2023. The directors of the Responsible Entity have the power to amend and reissue the financial statements.

2 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated in the following text.

(a) Basis of preparation

These general purpose financial statements have been prepared in accordance with Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board and the *Corporations Act 2001* in Australia. The Funds/Trusts are for-profit entities for the purpose of preparing the financial statements.

2 Summary of significant accounting policies (continued)

(a) Basis of preparation (continued)

The financial statements are prepared on the basis of fair value measurement of assets and liabilities except where otherwise stated.

The Statements of financial position are presented on a liquidity basis.

Assets and liabilities are presented in decreasing order of liquidity and are not distinguished between current and non-current. All balances are expected to be recovered or settled within twelve months, except for investments in financial assets at fair value through profit or loss and net assets attributable to unitholders.

The Funds/Trusts invest in financial assets at fair value through profit or loss based on the economic circumstances at any given point in time, as well as to meet any liquidity requirements. As such, it is expected that a portion of the portfolio will be realised within 12 months, however, an estimate of that amount cannot be determined as at reporting date.

In the case of net assets attributable to unitholders, the units are redeemable on demand at the unitholders' option. However, holders of these instruments typically retain them for the medium to long term. As such, the amount expected to be settled within 12 months cannot be reliably determined.

(i) Compliance with International Financial Reporting Standards

The financial statements of the Funds/Trusts also comply with International Financial Reporting Standards as issued by the International Accounting Standards Board.

(ii) New and amended standards adopted by the Funds/Trusts

There are no standards, interpretations or amendments to existing standards that are effective for the first time for the financial year beginning 1 July 2022 that have a material impact on the Funds/Trusts.

(iii) New standards, amendments and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the future financial statements of the Funds/Trusts.

(iv) Consolidation of Entities

The State Street International Equities Index (Hedged) Trust does not consolidate the State Street International Equities Index Trust under the requirements of AASB 10, since State Street International Equities Index (Hedged) Trust is an investment entity, and as such measures subsidiaries at fair value through profit or loss.

The State Street Global Index Plus (Hedged) Trust does not consolidate the State Street Global Index Plus Trust under the requirements of AASB 10, since State Street Global Index Plus (Hedged) Trust is an investment entity, and as such measures subsidiaries at fair value through profit or loss.

2 Summary of significant accounting policies (continued)

(b) Financial assets and liabilities at fair value through profit or loss

(i) Classification

Assets

The Funds/Trusts classify their investments based on their business models for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Funds/Trusts' portfolios of financial assets are managed and their performance are evaluated on a fair value basis in accordance with the Funds/Trusts' documented investment strategies. The Funds/Trusts use fair value information to assess performance of the portfolios and to make decisions to rebalance the portfolio or to realise fair value gains or minimise losses through sales or other trading strategies. The Funds/Trusts' policies are for the Responsible Entity to evaluate the information about these financial assets on a fair value basis together with other related financial information.

Equity securities and derivatives are measured at fair value through profit or loss.

For debt securities, the contractual cash flows are solely payments of principal and interest, however they are neither held for collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Funds/Trusts' business models' objective. Consequently, the debt securities are measured at fair value through profit or loss.

Liabilities

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss.

(ii) Recognition/derecognition

The Funds/Trusts recognise financial assets and financial liabilities on the date they become party to the contractual agreement (trade date) and recognise changes in the fair value of the financial assets or financial liabilities from this date.

Investments are derecognised when the right to receive cash flows from the investments have expired or have been transferred and the Funds/Trusts have transferred substantially all of the risks and rewards of ownership.

(iii) Measurement

At initial recognition, the Funds/Trusts measure financial assets and financial liabilities at fair value. Transaction costs of financial assets and financial liabilities carried at fair value through profit or loss are expensed in the Statements of comprehensive income.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the financial assets or financial liabilities at fair value through profit or loss category are presented in the Statements of comprehensive income within 'net gains/(losses) on financial instruments at fair value through profit or loss' in the period in which they arise.

For further details on how the fair values of financial instruments are determined please see note 5 to the financial statements.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. Refer to note 4 to the financial statements for further information.

(d) Net assets attributable to unitholders

Units are redeemable at the unitholders' option, however, applications and redemptions may be suspended by the Responsible Entity if it is in the best interests of the unitholders.

2 Summary of significant accounting policies (continued)

(d) Net assets attributable to unitholders (continued)

The units can be put back to the Funds/Trusts at any time for cash based on the redemption price, which is equal to a proportionate share of the Funds/Trusts' net asset value attributable to the unitholders.

The units are carried at the redemption amount that is payable at the reporting date if the holder exercises the right to put the unit back to the Funds/Trusts. This amount represents the expected cash flows on redemption of these units.

Under AASB 132 *Financial instruments: Presentation*, puttable financial instruments are classified as equity where certain strict criteria are met. The Funds/Trusts classify the net assets attributable to unit holders as equity as they satisfy the following criteria:

- the puttable financial instrument entitles the holder to a pro-rata share of net assets in the event of the Funds/Trusts' liquidation;
- the puttable financial instrument is in the class of instruments that is subordinate to all other classes of instruments and class features are identical;
- the puttable financial instrument does not include any contractual obligations to deliver cash or another financial asset, or to exchange financial instruments with another entity under potentially unfavourable conditions to the Funds/Trusts, and it is not a contract settled in the Funds/Trusts' own equity instruments; and
- the total expected cash flows attributable to the puttable financial instrument over the life of the instrument are based substantially on the profit or loss, or the change in the recognised net assets of the Funds/Trusts over the life of the instrument.

(e) Cash and cash equivalents

For the purpose of presentation in the Statements of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of three months or less from the date of acquisition that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are classified as liabilities in the Statements of financial position.

Payments and receipts relating to the purchase and sale of investment securities are classified as cash flows from operating activities, as movements in the fair value of these securities represent the Funds/Trusts' main income generating activities.

(f) Margin accounts

Margin accounts comprise cash held as collateral for derivative transactions. The cash is held by the broker and is only available to meet margin calls. It is not included as a component of cash and cash equivalents.

(g) Investment income

Interest income from financial assets at amortised cost is recognised on a time-proportionate basis using the effective interest method and includes interest from cash and cash equivalents.

Interest from financial assets at fair value through profit or loss is determined based on the contractual coupon interest rate and includes interest from debt securities.

Dividend income is recognised on the ex-dividend date with any related foreign withholding tax recorded as an expense.

Trust distributions are recognised on an entitlements basis.

Dividend and distribution income from financial assets at fair value through profit or loss is recognised in the Statements of comprehensive income within dividend income and distribution income when the Funds/Trusts' right to receive payments is established.

2 Summary of significant accounting policies (continued)

(g) Investment income (continued)

Other changes in fair value for such instruments are recorded in accordance with the policies described in Note 2(b) to the financial statements.

(h) Expenses

All expenses, including Responsible Entity's fees and the Investment Manager's fees, are recognised in the Statements of comprehensive income on an accruals basis.

(i) Income tax

Under current legislation, the Funds/Trusts are not subject to income tax provided they attribute the entirety of their taxable income to their unitholders.

Financial instruments at fair value may include unrealised capital gains. Should such a gain be realised, that portion of the gain that is subject to capital gains tax will be attributed so that the Funds/Trusts are not subject to capital gains tax.

Realised capital losses are not distributed to unitholders but are retained in the Funds/Trusts to be offset against any realised capital gains. If realised capital gains exceed realised capital losses, the excess is attributed to unitholders. The Responsible Entity may elect to distribute concessional capital gains when they arise. This may occur even when total capital losses exceed capital gains.

The benefits of tax credits paid are passed on to unitholders.

(j) Distributions

In accordance with the Funds'/Trusts' Constitutions, the Funds/Trusts distribute income and any other amounts determined by the Responsible Entity, to unitholders by cash, reinvestment or attribution. The distributions are recognised in the Statements of changes in equity.

(k) Foreign currency translation

(i) Functional and presentation currency

Items included in the Funds'/Trusts' financial statements are measured using the currency of the primary economic environment in which they operate (the "functional currency"). This is the Australian dollar, which reflects the currency of the economy in which the Funds/Trusts compete for funds and are regulated. The Australian dollar is also the Funds'/Trusts' presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translations at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statements of comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when fair value was determined. Translation differences on assets and liabilities at fair value are reported in the Statements of comprehensive income on a net basis within net gains/(losses) on financial instruments at fair value through profit or loss.

(l) Due from/to brokers

Amounts due from/to brokers represent receivables for securities sold and payables for securities purchased that have been contracted for but not yet delivered by the end of the year. The due from brokers balance is held for collection and consequently measured at amortised cost.

2 Summary of significant accounting policies (continued)

(l) Due from/to brokers (continued)

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds/Trusts shall measure the loss allowance on amounts due from broker at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds/Trusts shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the broker, probability that the broker will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

(m) Receivables

Receivables may include amounts for dividends, trust distributions and interest. Dividends and trust distributions are accrued when the right to receive payment is established. Interest is accrued at the end of each reporting period from the time of last payment. Amounts are generally received within 30 days of being recorded as receivables.

These amounts are recognised initially at fair value and subsequently measured at amortised cost. At each reporting date, the Funds/Trusts shall measure the loss allowance on receivables at an amount equal to the lifetime expected credit losses if the credit risk has increased significantly since initial recognition. If, at the reporting date, the credit risk has not increased significantly since initial recognition, the Funds/Trusts shall measure the loss allowance at an amount equal to 12-month expected credit losses. Significant financial difficulties of the counterparty, probability that the counterparty will enter bankruptcy or financial reorganisation, and default in payments are all considered indicators that a loss allowance may be required. If the credit risk increases to the point that it is considered to be credit impaired, interest income will be calculated based on the gross carrying amount adjusted for the loss allowance. A significant increase in credit risk is defined by management as any contractual payment which is more than 30 days past due. Any contractual payment which is more than 90 days past due is considered credit impaired.

The amount of the impairment loss is recognised in profit or loss within other expenses. When a trade receivable for which an impairment allowance had been recognised becomes uncollectible in a subsequent period, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in profit or loss.

(n) Payables

Payables include liabilities and accrued expenses owing by the Funds/Trusts which are unpaid as at the end of the reporting period.

(o) Applications and redemptions

Applications received for units in the Funds/Trusts are recorded net of any entry fees payable prior to the issue of units in the Funds/Trusts. Redemptions from the Funds/Trusts are recorded gross of any exit fees payable after the cancellation of units redeemed.

(p) Goods and Services Tax (GST)

The GST incurred on the costs of various services provided to the Funds/Trusts by third parties such as Custodial and Administration services, Responsible Entity services and Investment Management services have been passed onto the Funds/Trusts. The Funds/Trusts qualify for Reduced Input Tax Credits ("RITC"). Hence Responsible Entity fees, Investment Management fees and other expenses have been recognised in the Statements of comprehensive income net of the amount of GST recoverable from the Australian Taxation Office ("ATO"). Accounts payable are inclusive of GST. The net amount of GST recoverable from the ATO is included in receivables in the Statements of financial position. Cash flows relating to GST are included in the Statements of cash flow on a gross basis.

2 Summary of significant accounting policies (continued)

(q) Use of estimates

The Funds/Trusts may make estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates are continually evaluated and based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

For the majority of the Funds/Trusts' financial instruments, quoted market prices are readily available.

For certain other financial instruments, including amounts due from/to brokers, accounts payable and accrued expenses, the carrying amounts approximate fair value due to the immediate or short-term nature of these financial instruments.

(r) Rounding of amounts

The Funds/Trusts are entities of the kind referred to in *ASIC Corporations (Rounding in Financial Directors' Reports) Instrument 2016/191* issued by the Australian Securities and Investments Commission (ASIC) relating to the "rounding off" of amounts in the financial statements. Amounts in the financial statements have been rounded to the nearest dollar in accordance with that ASIC Corporations Instrument, unless otherwise indicated.

3 Financial risk management

The Funds/Trusts' activities expose them to a variety of financial risks: market risk (including price risk, foreign exchange risk and interest rate risk), credit risk and liquidity risk.

The Funds/Trusts' overall risk management programme focuses on ensuring compliance with the Funds/Trusts' Product Disclosure Statement ("PDS") and seeks to maximise the returns derived for the level of risk to which the Funds/Trusts are exposed. The Funds/Trusts may use derivative financial instruments to alter certain risk exposures.

Financial risk management is carried out by the Investment Manager under an Investment Mandate approved by the Board of Directors of the Responsible Entity (the "Board").

The Funds/Trusts use different methods to measure different types of risk to which they are exposed. These methods are explained below.

(a) Market risk

(i) Price risk

The Funds/Trusts invest in various investments including securities on Global Stock Exchanges, cash instruments, derivatives and other managed investment schemes. The Funds/Trusts are exposed to equity securities and derivatives securities price risk. The risk is that the value of the Funds/Trusts' investment portfolio will fluctuate as a result of changes in market prices. The risk is influenced by economic, technological, political, legal conditions and sentiment, all of which can change. This can mean that assets held by the Funds/Trusts in these markets may fall in value. Growth assets are generally considered to have a higher risk/return profile than income producing assets such as fixed interest securities and cash.

The Investment Manager manages the price risk by following a clearly established investment mandate for the Funds/Trusts' investments. The majority of the Funds/Trusts' investments are securities and investments in other managed investment schemes whose securities are listed on the MSCI World ex-Australia Index and MSCI World ex-Australia hedged to AUD Index respectively, while the cash instruments are at a minimum rating of A1 or higher as rated by Standard & Poor's. The use of derivatives is limited to a small level of the total value of the Funds/Trusts. Compliance with the Funds/Trusts' PDS and investment mandate is monitored on a daily basis and reports are provided to the Board and Compliance Committee on a regular basis.

The table on page 41 shows the impact on net asset value of State Street International Equities Index Trust of a reasonably possible shift in the MSCI World ex-Australia Index, assessed as an increase of 15% (2022: 15%) and decrease of 15% (2022: 15%) in the MSCI World ex-Australia Index (with all other variables held constant). The impact mainly arises from the reasonably possible change in the fair value of equity securities, unit trusts and equity derivatives.

The table on page 41 shows the impact on net asset value of State Street International Equities Index (Hedged) Trust of a reasonably possible shift in the MSCI World ex-Australia hedged to AUD Index, assessed as an increase of 15% (2022: 15%) and decrease of 15% (2022: 15%) in the MSCI World ex-Australia hedged to AUD Index (with all other variables held constant). The impact mainly arises from the reasonably possible change in the fair value of unit trusts and equity derivatives.

The table on page 42 shows the impact on net asset value of State Street Global Equity Fund of a reasonably possible shift in the MSCI World ex-Australia Index, assessed as an increase of 13% (2022: 13%) and decrease of 13% (2022: 13%) in the MSCI World ex-Australia Index (with all other variables held constant). The impact mainly arises from the reasonably possible change in the fair value of listed equities and unit trusts.

The table on page 42 shows the impact on net asset value of State Street Climate ESG International Equity Fund of a reasonably possible shift in the MSCI World ex-Australia Index, assessed as an increase of 15% (2022: 15%) and decrease of 15% (2022: 15%) in the MSCI World ex-Australia Index (with all other variables held constant). The impact mainly arises from the reasonably possible change in the fair value of equity securities, unit trusts and equity derivatives.

The table on page 43 shows the impact on net asset value of State Street Global Index Plus Trust of a reasonably possible shift in the MSCI World ex-Australia Index, assessed as an increase of 15% (2022: 15%) and decrease of 15% (2022: 15%) in the MSCI World ex-Australia Index (with all other variables held constant). The impact mainly arises from the reasonably possible change in the fair value of listed equities, unit trusts and equity derivatives.

The table on page 43 shows the impact on net asset value of State Street Global Index Plus (Hedged) Trust of a reasonably possible shift in the MSCI World ex-Australia hedged to AUD Index, assessed as an increase of 15% (2022: 15%) and decrease of 15% (2022: 15%) in the MSCI World ex-Australia hedged to AUD Index (with all other variables held constant).

(ii) Foreign exchange risk

Foreign exchange risk arises as the value of monetary assets and liabilities denominated in other currencies will fluctuate due to changes in exchange rates.

The tables below summarise the Funds'/Trusts' assets and liabilities that are denominated in a currency other than the Australian dollar.

(iii) Interest rate risk

Interest rate risk is the risk that interest rate movements will have a negative impact on investment value or returns. Interest rate risk is managed in accordance with the underlying investment strategy of the Funds/Trusts.

The Funds'/Trusts' policies are to maintain derivative adjusted exposure to cash instruments, at any point in time of no more than 5% of the Funds'/Trusts' value.

Compliance with the value of cash investments held is monitored daily and reported to the Board and Compliance Committee on a regular basis.

An analysis of financial liabilities by maturities is provided in note 3 paragraph (d).

The tables in note 3 paragraph (b) summarise the impact of an increase/decrease of interest rates on the Funds'/Trusts' operating profit and net assets attributable to unitholders through changes in future cash flows. The analysis is based on the assumption that interest rates changed by +/- 100 basis points (2022: +/- 100 basis points) from the year end rates with all other variables held constant. The impact mainly arises from changes in the fair value of cash and cash equivalents.

3 Financial risk management (continued)

(b) Summarised sensitivity analysis

The following tables summarise the sensitivity of the Funds'/Trusts' operating profit and net assets attributable to unitholders to the various market risks. The reasonably possible movements in the risk variables have been determined based on management's best estimate, having regard to a number of factors, including historical correlation of the Funds'/Trusts' investments with the relevant benchmark and market volatility. However, actual movements in the risk variables may be greater or less than anticipated due to a number of factors, including unusually large market shocks resulting from changes in the performance of the economies, markets and securities in which the Funds/Trusts invest. As a result, historic variations in risk variables are not a definitive indicator of future variations in the risk variables.

| 30 June 2022 | (202,598,429) | 202,598,429 | (352,560) | 352,560 |

The sensitivity factors for 30 June 2022 were +/- 15% for price risk and +/- 100bps for interest rate risk.

Foreign exchange exposure on monetary assets and liabilities has no significant sensitivity impact on the Trust.

The sensitivity factors for 30 June 2022 were +/- 15% for price risk, +/- 100bps for interest rate risk and +/- 14% for foreign exchange risk.

The impact of increase/decrease in net assets attributable to unitholders arising from foreign exchange risk was not prepared on a look-through basis for investments held indirectly through the unlisted unit trust. The above foreign exchange risk impact mainly arises from foreign currency forward contracts.

The Fund is expected to have a long term currency risk hedge ratio of approximately 50%. Hence the expected long term currency variability has been set as 50% of the fully hedged indexed fund.

The sensitivity factors for 30 June 2022 were +/- 13% for price risk, +/- 100bps for interest rate risk and +/- 7% for foreign exchange risk.

The sensitivity factors for 30 June 2022 were +/- 15% for price risk, +/- 100bps for interest rate risk and +/- 14% for foreign exchange risk.

The impact of increase/decrease in net assets attributable to unitholders arising from foreign exchange risk was not prepared on a look-through basis for investments held indirectly through the unlisted unit trust. The above foreign exchange risk impact mainly arises from foreign currency forward contracts which are designed to hedge the foreign exchange risk in the underlying unit trust's security holdings.

In determining the impact of an increase/decrease in net assets attributable to unitholders arising from market risk, the Responsible Entity has considered prior period and expected future movements of the portfolio based on market information in order to determine a reasonably possible shift in assumptions.

3 Financial risk management (continued)

(c) Credit risk

Credit risk primarily arises from investments in debt securities and derivative financial instruments. Other credit risk arises from cash and cash equivalents, deposits with banks and other financial institutions and amounts due from brokers. None of these assets are impaired nor past due but not impaired.

Credit risk is the risk that a counterparty will fail to perform contractual obligations, either in whole or part. Credit risk is managed primarily by:

- Ensuring counterparties, together with the respective credit limits, are approved in accordance with the Investment Manager's criteria; and
- Ensuring that transactions are undertaken with a range of counterparties.

For derivative financial instruments, the Investment Manager has established limits such that, at any time, the maximum exposure of the State Street Global Equity Fund to derivative instruments shall be limited to 10%. For three business days immediately prior to, and three business days immediately after, a distribution the maximum exposure to derivative instruments shall be 15%. The Maximum exposure of the other Funds/Trusts to derivative instruments shall be limited to 25% at any time.

Compliance with the Funds'/Trusts' mandate is monitored on a daily basis and reported to the Board and Compliance Committee on a regular basis.

The maximum exposure to credit risk at the end of each reporting period is the carrying amount of the financial assets.

The clearing and depository operations of the Funds'/Trusts' security transactions are mainly concentrated with one counterparty namely State Street Australia Limited. At 30 June 2023, State Street Australia Limited had a credit rating of A (2022: A). As at 30 June 2023, substantially all cash and investments are held in custody by State Street Australia Limited.

(d) Liquidity risk

The Funds/Trusts are exposed to cash redemptions of redeemable units by unitholders from time to time. They therefore primarily hold investments that are traded in an active market and can be readily disposed.

The Funds'/Trusts' listed securities are considered readily realisable, as they are listed on global stock exchanges.

The Funds/Trusts may, from time to time, invest in derivative contracts traded over the counter, which are not traded in an organised market and may be illiquid. As a result, the Funds/Trusts may not be able to quickly liquidate their investments in these instruments at an amount close to their fair value to meet their liquidity requirements or to respond to specific events such as deterioration in the creditworthiness of any particular issuer or counterparty.

3 Financial risk management (continued)

(d) Liquidity risk (continued)

(i) Maturities of non-derivative financial liabilities

The tables below analyse the Funds'/Trusts' non-derivative financial liabilities into relevant maturity groupings based on the remaining period to the earliest possible contractual maturity date at the year end date. The amounts in the tables are contractual undiscounted cash flows.

Units are redeemed on demand at the unitholder's option. It is not expected that the contractual maturity disclosed in the tables below will be representative of the actual cash outflows.

4 Offsetting financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the Statements of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The gross and net positions of financial assets and liabilities that have been offset in the Statements of financial position are disclosed in the first three columns of the tables below.

4 Offsetting financial assets and financial liabilities (continued)

(i) *Master netting arrangement – not currently enforceable*

Agreements with derivative counterparties are based on the ISDA Master Agreement. Under the terms of these arrangements, only where certain credit events occur (such as default), the net position owing/receivable to a single counterparty in the same currency will be taken as owing and all the relevant arrangements terminated. As the Funds/Trusts do not presently have a legally enforceable right of set-off, these amounts have not been offset in the Statements of financial position, but have been presented separately in the above tables.

5 Fair value measurement

The Funds/Trusts measure and recognise Financial assets / liabilities at fair value through profit or loss (see note 7 and note 8) on a recurring basis.

The Funds/Trusts have no assets or liabilities measured at fair value on a non-recurring basis in the current reporting period.

AASB 13 requires disclosure of fair value measurements by level of the following fair value hierarchy:

- (a) quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- (b) inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- (c) inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

(i) *Fair value in an active market (level 1)*

The fair value of financial assets and liabilities traded in active markets is based on their last traded prices at the end of the reporting period without any deduction for estimated future selling costs.

The Funds/Trusts value their investments in accordance with the accounting policies set out in note 2 to the financial statements.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

(ii) *Valuation techniques used to derive level 2 and level 3 fair value*

The fair value of financial assets and liabilities that are not exchange-traded in an active market is determined using valuation techniques. These include the use of recent arm's length market transactions, reference to the current fair value of a substantially similar other instrument, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the end of the reporting period applicable for an instrument with similar terms and conditions.

For other pricing models, inputs are based on market data at the end of the reporting period. Fair values for unquoted equity investments are estimated, if possible, using applicable price/earnings ratios for similar listed companies adjusted to reflect the specific circumstances of the issuer.

The fair value of derivatives that are not exchange traded is estimated at the amount that the Funds/Trusts would receive or pay to terminate the contract at the end of the reporting period taking into account current market conditions (volatility and appropriate yield curve) and the current creditworthiness of the counterparties. The fair value of a forward contract is determined as a net present value of estimated future cash flows, discounted at appropriate market rates as at the valuation date.

5 Fair value measurement (continued)

(ii) Valuation techniques used to derive level 2 and level 3 fair value (continued)

Investments in other unlisted unit trusts are recorded at the redemption value per unit as reported by the investment managers of such funds.

Some of the inputs to these models may not be market observable and are therefore estimated based on assumptions.

The output of a model is always an estimate or approximation of a value that cannot be determined with certainty, and valuation techniques employed may not fully reflect all factors relevant to the positions the Funds/Trusts hold. Valuations are therefore adjusted, where appropriate, to allow for additional factors including liquidity risk and counterparty risk.

Recognised fair value measurement

The tables below set out the Funds'/Trusts' financial assets and liabilities (by class) measured at fair value according to the fair value hierarchy at 30 June 2023 and 30 June 2022.

9 Derivative financial instruments

In the normal course of business the Funds/Trusts enter into transactions in various derivative financial instruments with certain risks. A derivative is a financial instrument or other contract which is settled at a future date and whose value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index or other variable.

Derivative financial instruments require no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.

Derivative transactions include many different instruments, such as forwards, futures, options and swaps. Derivatives are considered to be part of the investment process and the use of derivatives is an essential part of the Funds'/Trusts' portfolio management. Derivatives are not managed in isolation. Consequently, the use of derivatives is multifaceted and may include:

- hedging to protect an asset or liability of the Funds/Trusts against a fluctuation in market values or to reduce volatility;
- a substitution for trading of physical securities; and
- adjusting asset exposures within the parameters set in the investment strategy, and adjusting the duration of fixed interest portfolios or the weighted average maturity of cash portfolios.

While derivatives are used for trading purposes, they are not used to gear (leverage) a portfolio. Gearing a portfolio would occur if the level of exposure to the markets exceeds the underlying value of the Funds/Trusts.

The Funds/Trusts hold the following derivative instruments:

(a) Futures

Futures are contractual obligations to buy or sell financial instruments on a future date at a specified price established in an organised market. The futures contracts are collateralised by cash or marketable securities. Changes in futures contracts' values are settled daily with the exchange. Index futures are contractual obligations to receive or pay a net amount based on changes in indices at a future date at a specified price, established in an organised financial market.

(b) Foreign currency contracts

Foreign currency contracts are primarily used by the Funds/Trusts to hedge against foreign currency exchange rate risks on their non-Australian dollar denominated trading securities. The Funds/Trusts agree to receive or deliver a fixed quantity of foreign currency for an agreed upon price on an agreed future date. Currency contracts are valued at the prevailing bid price at the end of each reporting period. The Funds/Trusts recognise a gain or loss equal to the change in fair value at the end of each reporting period.

Risk exposures and fair value measurements

Information about the Funds'/Trusts' exposure to credit risk, foreign exchange risk, interest rate risk and about the methods and assumptions used in determining fair values is provided in note 3 and note 5 to the financial statements. The maximum exposure to credit risk at the end of the reporting period is the carrying amount of each class of derivative financial instruments disclosed above.

10 Structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity and the relevant activities are directed by means of contractual arrangements.

The Funds/Trusts consider all investments in managed investment schemes (funds) to be structured entities. The Funds/Trusts invest in related managed funds for the purpose of capital appreciation and or earning investment income.

The Funds/Trusts with exposure to investments in related investee funds at fair value, and any related gains/losses recognised in the statement of comprehensive income is disclosed at note 18.

11 Net assets attributable to unitholders

As stipulated within the Funds'/Trusts' Constitutions, a unit confers an equal undivided, vested, and inalienable interest in the assets as a whole, subject to the liabilities. There are no separate classes of units within each Fund/Trust and each unit has the same rights attaching to it as all other units of that Fund/Trust.

Capital risk management

The Funds/Trusts manage their net assets attributable to unitholders as capital. The amount of net assets attributable to unitholders can change significantly on a daily basis as the Funds/Trusts are subject to daily applications and redemptions at the discretion of unitholders. Net assets attributable to unitholders are representative of the expected cash outflows on redemption.

Daily applications and redemptions are reviewed relative to the liquidity of the Funds'/Trusts' underlying assets on a daily basis by the Responsible Entity. Under the terms of the Funds'/Trusts' Constitution, the Responsible Entity has the discretion to reject an application for units and to defer or adjust a redemption of units if the exercise of such discretion is in the best interests of unitholders.

Independent Auditor's Report

To the unitholders of:

- ▶ State Street International Equities Index Trust
- ▶ State Street International Equities Index (Hedged) Trust
- ▶ State Street Global Equity Fund
- ▶ State Street Climate ESG International Equity Fund
- ▶ State Street Global Index Plus Trust
- ▶ State Street Global Index Plus (Hedged) Trust

referred to collectively as State Street International Equities Funds.

Opinion

We have audited the financial report of State Street International Equities Funds (the "Funds/Trusts"), which comprises the statements of financial position as at 30 June 2023, the statements of comprehensive income, statements of changes in equity and statements of cash flows for the year then ended, notes to the financial statements, including a summary of significant accounting policies, and the directors' declaration.

In our opinion, the accompanying financial report is in accordance with the *Corporations Act 2001*, including:

- a) giving a true and fair view of the Funds'/Trusts' financial position as at 30 June 2023 and of their financial performance for the year ended on that date; and
- b) complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Funds/Trusts in accordance with the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's *APES110 Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Report and Auditor's Report Thereon

The Directors of the Responsible Entity of the Funds/Trusts are responsible for the other information. The other information comprises the information included in the Annual Report other than the financial report and our auditor's report thereon.

Our opinion on the financial report does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Report

The Directors of the Responsible Entity are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the Directors of the Responsible Entity determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Directors of the Responsible Entity are responsible for assessing the Funds'/Trusts' ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the Directors of the Responsible Entity either intend to liquidate the Funds'/Trusts' or to cease operations, or have no realistic alternative but to do so.

Auditor's Responsibilities for the Audit of the Financial Report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Building a better
working world

- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Funds'/Trusts' internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors of the Responsible Entity.
- ▶ Conclude on the appropriateness of the Directors of the Responsible Entity of the Funds'/Trusts' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Funds'/Trusts' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Funds'/Trusts' to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
