

Costs & Charges Information

State Street Global Advisors Limited (“SSGA”)

SSgA LDI Leveraged UK Interest Rate Swap 2060 Fund Class B (IE00B89G3X80)

This document is dated 31 December 2021.

This document provides details of costs and charges which may be incurred by the fund, including an estimate of transaction costs. These costs and charges are provided on an ex-ante basis, and are intended to provide an indication of the expected level of costs the fund may incur going forward.

Estimated Ex-Ante Costs & Charges Summary

GBP Example portfolio amount GBP1m

| Years 0 - 1 | % of Investment | GBP Cost | Subsequent Years | % of Investment | GBP Cost |
|---|-----------------|------------|---|-----------------|------------|
| Total Product Cost | 0.05% | 500 | Total Product Cost | 0.05% | 500 |
| 3 rd Party Payments Received | 0.00% | 0 | 3 rd Party Payments Received | 0.00% | 0 |
| Total Service Cost | 0.00% | 0 | Total Service Cost | 0.00% | 0 |
| Total Aggregated Costs | 0.05% | 500 | Total Aggregated Costs | 0.05% | 500 |

Itemised Estimated Ex-Ante Costs & Charges Summary

GBP Example portfolio amount GBP1m

| Product Costs | Description | % of Investment | GBP Cost |
|-------------------|--|-----------------|----------|
| One-Off Costs | Costs you paid when entering or exiting the fund | 0.00% | 0 |
| Ongoing Costs | Total costs for running the fund (incl. mgmt. fee) | 0.05% | 500 |
| Transaction Costs | Costs incurred by the fund buying and selling underlying investments | 0.00% | 0 |
| Incidental Costs | The impact of the performance fee | 0.00% | 0 |

The Cumulative Effect of Costs on Return

GBP Example portfolio amount GBP1m

Description of the illustration of the cumulative effect of costs on return

The below example is based on an investment of GBP1m. The total charges deducted for each fund will have an impact on the investment return you might get. While performance cannot be guaranteed, the illustration shows the effects charges have when comparing returns before and after fees. Past performance is not a guide to future performance. The value of investments cannot be guaranteed and an investor may receive back less than their original investment.

In year 1, without fees the performance the fund could have achieved would be 5.05%, after fees the performance achieved is 5%. This equates to a reduction in profit of GBP500. For subsequent years, without fees the performance the fund could have achieved would be 5.05%, after fees the performance achieved is 5%. This equates to a reduction in profit of GBP500.

Assumes GBP1,000,000 investment with 5% growth (zero entry and exit charges and no further investment)

| Investment Period | 1 Year (Year 0-1) | | Subsequent Years | |
|--|-------------------|-------|------------------|-------|
| | GBP | % | GBP | % |
| What you might return with no charges at all | 1,050,500 | 5.05% | 1,050,500 | 5.05% |
| What you might return after charges | 1,050,000 | 5.00% | 1,050,000 | 5.00% |
| Cumulative effect of costs and charges on return | 500 | 0.05% | 500 | 0.05% |

All data is sourced by State Street Global Advisors and all ex-ante data is provided at 31st December 2021 unless indicated otherwise.

State Street Global Advisors Limited (“SSGA”)

SSgA LDI Leveraged UK Interest Rate Swap 2060 Fund Class B (IE00B89G3X80)

The costs disclosed below relate to the period 1st January 2021 - 31st December 2021.

This document provides details of costs and charges actually incurred by the fund (ex post).

Ex-Post Costs & Charges Summary

GBP Example portfolio amount GBP1m

| | % of Investment | GBP Cost |
|---|-----------------|------------|
| Total Product Cost | 0.05% | 500 |
| 3 rd Party Payments Received | 0.00% | 0 |
| Total Service Cost | 0.00% | 0 |
| Total Aggregated Costs | 0.05% | 500 |

Itemised Ex-Post Costs & Charges Summary

GBP Example portfolio amount GBP1m

| Product Costs | Description | % of Investment | GBP Cost |
|-------------------|--|-----------------|----------|
| One-Off Costs | Costs you paid when entering or exiting the fund | 0.00% | 0 |
| Ongoing Costs | Total costs for running the fund (incl. mgmt. fee) | 0.05% | 500 |
| Transaction Costs | Costs incurred by the fund buying and selling underlying investments | % | |
| Incidental Costs | The impact of the performance fee | 0.00% | 0 |

The Cumulative Effect of Costs on Return

The total charges deducted for each fund have an impact on your investment return throughout the course of the year. Whilst performance cannot be guaranteed, the illustration shows the effects charges have when comparing returns before and after fees. Past performance is not a guide to future performance. The value of investments cannot be guaranteed and an investor may receive back less than their original investment.

| Cumulative effect of costs and charges on return | 0.05% |

Costs & Charges Information

Marketing Communication.

The ex-ante costs provided herein are forward looking costs. These forward looking cost figures are estimates based on historic data where available and relevant, or are based upon the MIFID II guidelines for producing reasonable estimated forward looking cost figures when historic data is not available. Actual cost figures, which will be reported annually, may vary from estimates given herein. The numbers shown above are the average cost and charges that SSGA anticipates that you may incur. This is based, where possible, on actual cost and charges, and when such data is not available SSGA has made reasonable estimations on a best effort basis. SSGA reserves the right to review and amend the figures shown above. All information has been obtained from sources believed to be reliable as at date indicated unless otherwise noted, but its accuracy is not guaranteed.

There is no representation or warranty as to the current accuracy, reliability or completeness of, nor liability for, decisions based on such information and it should not be relied on as such. SSGA accepts no liability to you for any implication that the cost and charges expected in respect of: (i) a similar transaction executed at or around the same time; or (ii) the same transaction executed in future, will be the same as or similar to those shown in this document.

Definitions and methodology

| | |
|---|--|
| <i>Transaction Costs (General)</i> | The 2021 transaction cost amounts have been calculated in consistency with the PRIIPS methodology (Packaged Retail Investment and Insurance Products). Transaction Costs include explicit costs (commissions, taxes, exchange fees), as well as implicit costs. Implicit costs have been calculated using asset class specific methodologies, as detailed below. |
| <i>Implicit Transaction Costs (Equity)</i> | Implicit transaction costs for equity securities have been calculated by reference to the order arrival price methodology. That is : the price at the time the order is transmitted to a broker for execution. |
| <i>Implicit Transaction Costs (Foreign Exchange)</i> | Implicit transaction costs for foreign exchange securities have been calculated by reference to the order arrival price methodology. That is : the price at the time the order is transmitted to a broker for execution. With the exception of orders sent using market on close trading instructions and position roll overs, where the standard SSGA Trading Cost Analysis methodology was used. TCA calculates implicit costs by reference to the close price at the predefined order dealing target time (eg. London 4pm FIX rate). |
| <i>Implicit Transaction Costs (Futures)</i> | Implicit transaction costs for futures securities have been calculated by reference to the order arrival price methodology. That is : the price at the time the order is transmitted to the internal SSGA dealing desk. With the exception of orders sent using market on close trading instructions and position roll overs, where the standard SSGA Trading Cost Analysis methodology was used. TCA calculates implicit costs by reference to the close price one minute after the predefined order dealing target time. |
| <i>Implicit Transaction Costs (Fixed Income)</i> | Implicit transaction costs for fixed income securities have been calculated using the spread methodology. That is: the difference between the price for buying (offer price) and the price for selling (bid price) a stock or security. |
| <i>Implicit Transaction Costs (Money Markets Instruments)</i> | Implicit transaction costs for short-term fixed income securities have been calculated using the spread methodology. That is: the difference between the price for buying (offer price) and the price for selling (bid price) a stock or security. |
| <i>Anti Dilution Levies (ADL)</i> | Have been backed out from the transaction costs calculations, for the below Fund ranges : Authorised Unit Trusts, Managed Pension Funds Limited, SSGA Liquidity Plc, SSGA Luxembourg SICAV, SSGA Qualified Trust, State Street Authorised Contractual Scheme, State Street Global Advisors Gross Roll Up Unit Trust, State Street ICAV, State Street Ireland Unit Trust, State Street Spectrum Unit Trust, WindWise Property Unit Trust, WindWise Qualified Funds Plc. Eg : reported transaction costs = Explicit Costs + Implicit Costs – ADL |
| <i>SPDRs Primary Market Transactions</i> | The impact of transactions in the primary market has been adjusted for, as below. For Fixed Income Funds the Anti Dilution Levies have been backed out (please see ADL section). For Equity Funds : Primary Market trades have been excluded from transaction costs calculations. |
| <i>3rd Party Payments Received</i> | Third Party payments received by investment firms in connection with the investment service provided. |
| <i>Total Service Cost</i> | Costs related to the provision of an investment service. |

Investing involves risk including the risk of loss of principal. Bonds generally present less short-term risk and volatility than stocks, but contain interest rate risk (as interest rates raise, bond prices usually fall); issuer default risk; issuer credit risk; liquidity risk; and inflation risk. These effects are usually pronounced for longer-term securities. Any fixed income security sold or redeemed prior to maturity may be subject to a substantial gain or loss.
