AMENDMENTS TO THE PROSPECTUS

1. The following definition is to be inserted in the section entitled “**Definitions**”:

“Taxonomy Regulation	means Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088, as may be amended from time to time;”
-----------------------------	--

2. The section of the Prospectus entitled “**ESG Investing**” will be amended by the inclusion of the following sub-section at the end of the final paragraph therein:

“Taxonomy Regulation

The Taxonomy Regulation establishes criteria for determining whether an economic activity qualifies as environmentally sustainable in the context of particular environmental objectives. The Taxonomy Regulation also obliges the Manager to disclose how and to what extent the investments of each Sub-Fund are in economic activities that qualify as environmentally sustainable pursuant to those criteria.

The Taxonomy Regulation requires the Manager to disclose (i) how and to what extent it has used the Taxonomy Regulation to determine the sustainability of the Sub-Funds’ underlying investments; and (ii) to what environmental objective(s), as set out within the Taxonomy Regulation, the underlying investments contribute. The analysis and disclosure requirements introduced by the Taxonomy Regulation are very detailed and compliance with them requires the availability of multiple, specific data points in respect of each investment which a Sub-Fund may invest. As at the date hereof, due to the delay to the publication of the final regulatory technical standards supplementing the Taxonomy Regulation and the related absence of sufficient reliable, timely and verifiable data in respect of the underlying investments, it is not currently possible to state accurately that the

underlying investments of a relevant Sub-Fund contribute to such environmental objectives. Once the regulatory technical standards have been finalised and more reliable data on the underlying investments becomes available, it is possible that this position may change. The Manager is keeping this situation under active review and where adequate, reliable data on the relevant Sub-Fund's investments become available, the Manager may be in a position to provide further details on the extent of which the Sub-Fund's investments are taxonomy aligned, in which case the Prospectus or the relevant Supplement will be updated.

Unless otherwise stated in a Sub-Fund's relevant Supplement, the investments in the Sub-Funds do not take into account the EU criteria for environmentally sustainable economic activities."

AMENDMENTS TO THE SUPPLEMENTS

1. The section of each Supplement entitled "**ESG Investing**" will be amended by the inclusion of the following sub-section at the end of the final paragraph therein:

"Taxonomy Regulation

This Sub-Fund promotes environmental characteristics. As such, it is required as per Article 6 of the Taxonomy Regulation to state that the "do no significant harm" principle applies only to those investments underlying the Sub-Fund that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities.

It should however be noted that notwithstanding the above, this Sub-Fund does not take into account the EU criteria for environmentally sustainable economic activities within the meaning of the Taxonomy Regulation and, as such, its portfolio alignment with the Taxonomy Regulation is not calculated."
