

State Street CCF

18 November 2019

State Street CCF World ESG Screened Index Equity Fund

Supplement No. 1

(A sub-fund of State Street CCF (the “CCF”), an open-ended umbrella common contractual fund with segregated liability between sub-funds authorised by the Central Bank of Ireland pursuant to the UCITS Regulations.)

This Supplement forms part of the Prospectus dated 18 November 2019, as amended from time to time (the “Prospectus”) in relation to the CCF. This Supplement should be read together with the Prospectus and Key Investor Information Document (“KIID”). It contains information relating to State Street CCF World ESG Screened Index Equity Fund (herein, the “Fund”) and its available Classes.

Unless otherwise defined herein or unless the context otherwise requires, all defined terms used in this Supplement shall bear the same meaning as in the Prospectus. Prospective investors should review the entire Supplement, Prospectus and relevant KIID carefully. If you have any questions, you should consult a stockbroker, bank manager, lawyer, accountant, investment consultant, or other independent financial and/or tax adviser. Potential investors should consider the risk factors set out in the Prospectus and in this Supplement before investing in this Fund. The Directors listed in the “*Management and Administration*” section of the Prospectus, accept responsibility for the information contained in this Supplement.

Fund Characteristics

Base Currency	USD
Investment Manager	State Street Global Advisors Ireland Limited
Sub-Investment Manager	State Street Global Advisors Limited
Dilution/Pricing Adjustment	This Fund will implement a Swing Pricing adjustment of up to 2% of the NAV per Unit.

Maximum TER*****	0.10%	0.10%	0.185%	0.215%	0.165%	0.195%	0.84%	0.87%

** At the date of this Supplement, all available Classes may not be seeded.

*** The full list of Class Currencies is available in the “Class Currencies and Class Currency Hedging” section of the Prospectus

**** Calculated and paid annually in or around 30 September.

Classification: General

**** Fees, expressed as a percentage of NAV, are accrued daily and paid monthly in arrears. Unitholders should refer to the “*Fees and Expenses*” section of the Prospectus for further information.

***** The Manager may choose to charge a lower TER in respect of a Class than the value stated above.

Investment Objective and Policy

Investment Objective: The objective of the Fund is to track the performance of global developed equity markets.

Investment Policy: The investment policy of the Fund is to track the performance of the Index (or any other index determined by the Directors from time to time to track substantially the same market as the Index) as closely as possible, while seeking to minimise as far as possible the tracking difference between the Fund's performance and that of the Index.

The Index measures the performance of global developed equity market securities, while excluding securities using certain Environmental, Social and Governance (ESG) criteria. The Index excludes securities based on an assessment of their adherence to international norms in relation to certain environmental protection, human rights, labour standards, anti-corruption, controversial weapons and tobacco.

The Investment Manager, on behalf of the Fund, will invest using the Replication Strategy as further described in the "Investment Strategies" section of the Prospectus, primarily in the securities of the Index, at all times in accordance with the investment restrictions set forth in the Prospectus. The Investment Manager also may, in exceptional circumstances, invest in securities not included in the Index but that it believes closely reflect the risk and distribution characteristics of securities of the Index.

Permitted Investments

Equities: The securities in which the Fund invests may include equities, or equity-related securities such as American Depositary Receipts (ADRs) or Global Depositary Receipts (GDRs). ADRs and GDRs are typically used instead of local shares, where owning the local shares represented in the Index is not possible or prohibitively expensive.

Other Funds / Liquid Assets: The Fund may invest up to 10% of its net assets in other regulated open-ended funds where the objectives of such funds are consistent with the objective of the Fund and where such funds are authorised in member states of the EEA, USA, Jersey, Guernsey or the Isle of Man and where such funds comply in all material respects with the provisions of the UCITS Regulations. In addition, the Fund may invest up to 10% of its net assets in Money Market Funds. The Fund may hold ancillary liquid assets such as deposits in accordance with the UCITS Regulations.

Derivatives: The Fund may, for efficient portfolio management purposes only, use FDIs. Any use of FDIs by the Fund shall be limited to futures and forward foreign exchange contracts (including non-deliverable forwards). Efficient portfolio management means investment decisions involving transactions that are entered into for one or more of the following specific aims: the reduction of risk; the reduction of cost; the generation of additional capital or income for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund; or the minimisation of tracking error, i.e. the risk that the Fund return varies from the Index return. FDIs are described in the "Investment Restrictions and Limits – FDI" section of the Prospectus.

All investments will be in accordance with the investment objective and policy of the Fund and the investment and borrowing restrictions set forth in the "Investment Restrictions" section of the Prospectus.

Securities Lending, Repurchase Agreements, Reverse Repurchase Agreements and Total Return Swaps

The Fund does not currently participate in a securities lending programme, though it is entitled to do so. The Fund also does not intend to engage in repurchase agreements and reverse repurchase agreements. Should the Directors elect to change this policy in the future, due notification will be given to Unitholders and this Supplement will be updated accordingly.

Borrowing & Risk Controls

The Fund will not utilise borrowing other than on a temporary basis for settlement reasons. While the Fund may be leveraged as a result of its investments in derivative instruments, such leverage will not exceed 100% of the Fund's total Net Asset Value. The Fund's global exposure and leverage is calculated using the commitment approach.

Investment Risks

Investment in the Fund carries with it a degree of risk. Investors should read the "Risk Information" section of the Prospectus. The following are the principal risks of investing in the Fund:

Currency Hedging Risk: Hedges are sometimes subject to imperfect matching between the hedging transaction and the risk sought to be hedged. There can be no assurance that the Fund's hedging transactions will be effective. As the purpose of currency hedging is to try to reduce or eliminate losses caused by exchange rate fluctuations, it can also reduce or eliminate gains where the currency in which the Fund's assets are denominated appreciates

Equity and Equity related securities Risk: The market prices of equity and equity related securities may go up or down, sometimes rapidly or unpredictably. The value of these securities may decline for reasons that directly relate to the issuer and/or due to general industry or market, such as real or perceived adverse economic conditions, changes in the general outlook for corporate earnings, changes in interest or currency rates, or adverse investor sentiment generally. Equity markets tend to move in cycles, which may cause stock prices to fall over short or extended periods of time.

Index Tracking Risk: The Fund's return may not match the return of the Index. It is currently anticipated that the Fund will track the Index with a potential variation of up to 2% annually under normal market conditions. The Fund's ability to track the Index will be affected by Fund expenses, the amount of cash and cash equivalents held in its portfolio, and the frequency and the timing of purchases and sales of interests in the Fund, including to reflect periodic rebalancing of the Index. The Investment Manager may attempt to replicate the performance of the Index return by investing in a sub-set of the securities in the Index, or in some securities not included in the Index, potentially increasing the risk of divergence between the Fund's return and that of the Index.

Risks related to Screened Indices: There is a risk that the screen provider may make errors, such as incorrect assessment of the screen criteria and/or include incorrect/exclude correct constituents, in the screening process or discontinue its screening services. In such circumstances, the Sub-Fund may change the Index although there is no guarantee that a replacement Index would result in a similar screening process to that intended or would be available at all.

Classification: General

Tax Status of the Fund: While it is expected that non-Irish tax authorities will recognise the Fund as being tax transparent, this may not prove to be the case in all relevant jurisdictions, potentially resulting in adverse tax consequences for the investor. Changes in the tax status of the CCF could lead to Taxation being due. Investors should seek professional advice in relation to such matters and the Manager shall not be liable for any unexpected Taxation being due.

Unit Class Risk: There is no segregation of liabilities between Classes of the Fund. While the Investment Manager will seek to ensure that gains/losses on and the costs of the relevant FDI associated with any currency hedging strategy will accrue solely to the Class for which it is intended, the transactions could result in liabilities for other Classes.

Investor Profile

The typical investors of the Sub-Fund are expected to be institutional and intermediary investors with a short, medium, or long term horizon who want to gain exposure to the performance of global developed equity markets and are prepared to accept the risks associated with an investment of this type and the expected medium to high volatility of the Fund.

Subscriptions, Redemptions and Switches

Investors may subscribe for, redeem or switch Classes on each Dealing Day at the relevant Dealing Price. For all subscription, redemption, and switch requests, the relevant form must be received by the Administrator by the Dealing Deadline. Unitholders should refer to the “Units” section of the Prospectus for further information.

Index Disclaimer

Please see Appendix 4 of the Prospectus for the MSCI index disclaimer.
