INTRODUCTION

The State Street Spectrum Unit Trust (the “Fund”) is authorised in Ireland by the Central Bank. The Fund is structured as an umbrella fund in that it may be divided into different classes of units (“Units”) with one or more classes representing a separate sub-fund of the Fund.

This Supplement contains information relating to the Units of the State Street Spectrum Moderate Balanced Fund (the “Sub-Fund”) to be issued in accordance with the Prospectus and this Supplement. This Supplement forms part of and should be read in the context of and together with the general description of the Fund contained in the current Prospectus together with the most recent audited annual report and accounts and, if published after such report, a copy of the latest unaudited semi-annual report.

At the date of this Supplement, separate classes of Units in the Sub-Fund have not been created, but separate classes of Units may be created in the future, upon prior notification to and clearance by the Central Bank.

INVESTMENT OBJECTIVES AND POLICIES

The investment objective of the Sub-Fund is primarily to seek to generate capital appreciation.

This is to be achieved primarily by investing the assets of the Sub-Fund in State Street GRU Euribor Plus Fund, a sub-fund of the Underlying Fund, which aims to achieve enhanced cash returns in excess of the ICE BofA Euro Currency 3-Month Deposit Offered Rate Constant Maturity Index (the “Index”) using a fundamental macro and credit research approach. There is no limit on the amount the Sub-Fund may invest in State Street GRU Euribor Plus Fund, but it is not currently expected that the investment allocation will exceed 80% of the net assets of the Sub-Fund.

The Sub-Fund may also invest in State Street GRU Euro Index Equity Fund, State Street GRU World ex Euro Index Equity Fund and State Street GRU EMU Bond Index Fund of the Underlying Fund, or such other sub-funds of the Underlying Fund as the Manager may determine in its discretion from time to time. It is not currently expected that the allocation of investment in State Street GRU Euro Index Equity Fund will exceed 15% of the net assets of the Sub-Fund. It is not currently expected that the investment allocation in State Street GRU World ex Euro Index Equity Fund will exceed 30% of the net assets of the Sub-Fund. It is not currently expected that the investment allocation in State Street GRU EMU Bond Index Fund will exceed 60% of the net assets of the Sub-Fund.

These sub-funds of the Underlying Fund are exposed to Euro denominated money market securities, Eurozone fixed income securities and equity securities (allocated between Global ex-Eurozone and Eurozone portfolios). As the Underlying Funds seek to track the performance of the relevant index for such Underlying Funds, as closely as reasonably possible, the Investment Manager and / or the Sub-Investment Manager will seek to match the performance of Euro denominated money market securities, Eurozone fixed income securities and equity securities (allocated between Global ex Eurozone and Eurozone portfolios), through its investment in such Underlying Funds.

The Investment Manager and / or the Sub-Investment Manager will determine the allocation of assets between the sub-funds of the Underlying Fund based on its current assessment of the risk and return profile of each such fund.

The Investment Manager and / or the Sub-Investment Manager may use the foreign exchange market to hedge some or all of the non-euro exposure in the underlying funds. The Investment Manager and / or the Sub-Investment Manager will use currency forwards to achieve this.

The Sub-Fund may also use for efficient portfolio management purposes only repurchase and reverse repurchase agreements and derivatives including currency forward contracts, options, interest rate swaps, and futures.

While Investments will be made principally on a fund of funds basis in the Underlying Fund, the Sub-Fund may also achieve its investment objective by investing on a fund of funds basis in other Regulated Funds and by investing up to 10% of its Net Asset Value in Unregulated Funds (in each case, where such Regulated Funds and Unregulated Funds are consistent with the investment policies of the Sub-Fund).

Details of the investment objectives and policies of the sub-funds of the Underlying Fund are contained in Appendix III of the Prospectus.

For the avoidance of doubt, the Sub-Fund is not a feeder fund.

The base currency of the Sub-Fund is Euro.

Risk Management and Leverage

Although the Sub-Fund may be leveraged as a result of its use of financial derivative instruments (“FDI”) and efficient portfolio management techniques, the Sub-Fund’s resulting global exposure will not exceed its total net assets, i.e., the Sub-Fund may not be leveraged in excess of 100% of its Net Asset Value.

In the event that the Sub-Fund uses FDI, the Sub-Fund’s global exposure and leverage is calculated using the commitment approach. This approach converts the Sub-Fund’s FDI positions into the equivalent positions in the underlying assets, and seeks to ensure that the FDI risk is monitored in terms of any future “commitments” to which it is (or may be) obligated. Investors should refer to the “Derivatives Risk” section in the Prospectus for information in relation to the risks associated with the use of FDI. The Fund does not currently use FDI; however, the Fund may use FDI, as described in this Supplement, in the future and no additional amendment to this Supplement will be made to reflect such use of FDI in the future. In the event that the Sub-Fund uses FDI, the Investment Manager and / or the Sub-Investment Manager will employ a risk management process in respect of the Sub-Fund which enables it to accurately measure, monitor and manage the various risks associated with FDI, the use of efficient portfolio management techniques and the management of collateral. The Investment Manager and / or the Sub-Investment Manager will employ only FDI that are covered by a risk management process that has been cleared by the Central Bank. In the event of the Sub-Fund proposing to use additional types of FDI, the risk management process and this supplement will be amended to reflect this intention.

SFDR FUND CLASSIFICATION

SFDR Fund Classification: Integrates Sustainability Risk / neither Article 8 nor Article 9.

By virtue of the Sub-Fund allocating investment to the Underlying Fund and as further described in the “ESG Integration” subsection of the “ESG Investing” section of the Prospectus, the Investment Manager and / or the Sub-Investment Manager is integrating Sustainability Risk into its investment process.

Integrating Sustainability Risk into the Sub-Fund’s investment process does not assure the mitigation of any or all Sustainability Risk. Any deterioration in the financial profile of an underlying investment affected by a Sustainability Risk may have a corresponding negative impact on the Net Asset Value and/or performance of the investing Sub-Fund.

INVESTMENT AND BORROWING RESTRICTIONS

The investment and borrowing restrictions set out in the Prospectus apply in their entirety to the Sub-Fund.

EXPOSURE TO SECURITIES FINANCING TRANSACTIONS

The Sub-Fund does not currently participate in a securities lending programme, though it is entitled to do so. The Sub-Fund's exposure to total return swaps and repurchase agreements is as set out below (as a percentage of Net Asset Value). **Should the Directors elect to change this policy in the future, due notification will be given to Unitholders and this Supplement will be updated accordingly.**

	Expected	Maximum
Total Return Swaps	0%	25%
Repurchase Agreements	0%	25%

MANAGEMENT AND ADMINISTRATION

Detailed descriptions of the Manager and other service providers to the Sub-Fund are set out in the Prospectus.

VALUATION OF ASSETS

The Net Asset Value of the Sub-Fund will be calculated by the Administrator as at each Valuation Point in accordance with the requirements of the Trust Deed and full details are set forth under the headings "Valuation, Subscription and Redemptions" and "Statutory and General Information" in the Prospectus. The Net Asset Value of the Sub-Fund will be expressed in its base currency, which is Euro.

SUBSCRIPTIONS

Application Procedure

Application Forms

In order to subscribe for Units of the Sub-Fund, all applicants must complete the application form prescribed by the Manager (the "Application Form") which sets out the methods by which and to whom the subscription monies should be sent. Application Forms shall be irrevocable (unless otherwise agreed with the Manager) and may be sent by facsimile at the risk of the applicant. The Application Form should be received by the Administrator, by 1.00 p.m. (Irish time) on the Business Day immediately preceding the relevant Dealing Day or such other day as the Directors may determine (provided the application is received before the earliest relevant Valuation Point). If an applicant's first Application Form is initially submitted by fax or other copy form, the originally executed Application Form should be received by the Administrator within five Business Days after the time for receipt of such application.

Failure to provide the original Application Form by such time may, at the discretion of the Manager, result in the rejection of the application and any monies received will, subject to any applicable laws, be returned to the applicant (minus any handling charge incurred in any such return) by electronic transfer (but without interest, costs or compensation) or in the compulsory redemption of the Units.

In any event, no redemption proceeds will be paid until the original Application Form has been received and all anti-money laundering checks completed.

In addition to the Application Form, applicants may be requested to provide other information (e.g. as to identity and corporate authorisation). Failure to provide such information may delay the processing of the application.

Fractions

Fractions of Units will be issued where any part of the subscription monies for Units represents less than the Net Asset Value per Unit, provided however, that fractions shall not be less than .01 of a Unit.

Subscription monies, representing less than .01 of a Unit will not be returned to the applicant but will be retained by the Sub-Fund in order to defray administration costs.

Pricing

All subscriptions will be dealt on a “forward” pricing basis, i.e. by reference to the Net Asset Value per Units calculated as at the Valuation Point for the relevant Dealing Day. Any Application Forms received after the relevant time for receipt will normally be held over until the next Dealing Day but may be accepted for dealing on the Dealing Day, if received prior to the earliest Valuation Point for that Dealing Day (at the discretion of the Manager, in exceptional circumstances only).

Payment of Subscription Monies

Method and Currency of Payment

Subscription payments net of all bank charges must be made in Euro (unless otherwise agreed with the Manager) and should be paid by electronic transfer to the bank account specified in the Application Form. Other methods of payment are subject to the prior approval of the Manager with the agreement of the Administrator. No interest will be paid in respect of payments received in circumstances where the application is held over to the next Dealing Day. The Fund may accept payment in currencies other than the base currency in which the units are denominated and in such event, the Manager will arrange for conversion of the subscription monies into such other currency. This may delay the processing of any such application. The cost and risk of converting currency will be borne by the applicant.

Timing of Payment

Payment in respect of subscriptions must be received in cleared funds on the second Business Day following the relevant Dealing Day or on such other day as the Directors may determine.

Payment

If payment in cleared funds in respect of a subscription has not been received by the time specified above, any allotment of Units made in respect of such application may be cancelled. In the event of the non-clearance of subscription monies, any allotment in respect of an application may be cancelled. In either event and notwithstanding cancellation of the application, the Manager may charge the applicant for any expense incurred by it or the Fund or for any loss to the Sub-Fund arising out of such non-receipt or non-clearance plus an administration fee may be payable to the Fund. In addition, the Manager will have the right to sell all or part of the applicant’s holding of Units in the relevant class or any other Sub-Fund in order to meet those charges.

Minimum Subscriptions/Holdings

Initial Subscriptions

The minimum initial subscription amount for Units in the Sub-Fund is €10,000 or its foreign currency equivalent (or less at the discretion of the Manager).

Units will be redeemed at the Net Asset Value for the relevant Dealing Day.

A redemption request shall (save as determined by the Manager) be irrevocable and may be sent by facsimile at the risk of the relevant Unitholder.
